

Desktop Computer Model - LARGE (50 x 50 cm)

Closed 3D boxes, cut - fold - glue. Every glue tab shows the piece code.

You need

- Colour printer, 200-250 g/m2 card (or normal paper glued onto thin card)
- Scissors / craft knife, metal ruler, empty pen to score folds, glue stick + white PVA glue
- Base: cardboard or foam board 50 x 50 cm (5-10 mm thick)

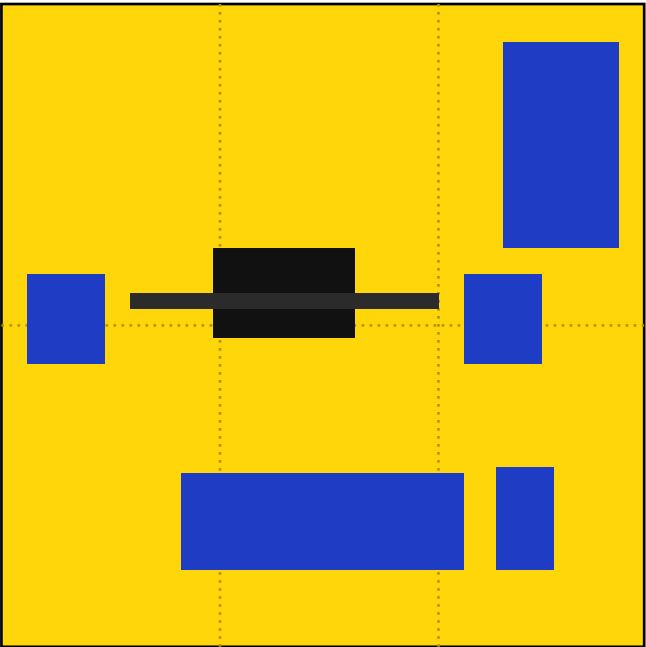

Pieces (code - piece - file)

A1..C2	Yellow base tiles (6)	01_base
E1..E8	Black base edge strips	01_base
T1..T6	PC tower: sides, front, back, top, bottom 9 x 16 x 20	02_pc_tower
M1, M2	Monitor screen + back with top wall 24 x 15 x 1.2	03_monitor
M3, M4, M5	Monitor bottom wall + 2 side walls	07_small_parts
S1, S2	Stand neck + foot top	04_monitor_stand
S3	Foot bottom	07_small_parts
L1, R1	Speaker walls (left, right) 6 x 7 x 11	05_speakers
L2,L3,R2,R3	Speaker tops + bottoms	05_speakers
K1 / K2	Keyboard top+walls / bottom 22 x 7.5 x 1	06_keyboard / 07_small_parts
U1 / U2	Mouse top+walls / bottom 4.5 x 8 x 1.3	07_small_parts
X1, X2	OPTIONAL RGB speaker fronts	08_optional

How to build

1. Print at 100 %. Check the 5 cm ruler at the bottom of each page. Cut SOLID lines, score + fold DASHED lines.
2. Grey tabs always go INSIDE. Fold every tab 90 deg first, put glue on the tab, then press the next panel on it.
3. TOWER: fold all tabs of T1 + T2 (sides). Glue T3 (front) and T4 (back) between the sides, then T5 top, T6 bottom.
4. SPEAKERS: close the wall strip L1 with its side tab, then glue L2 on top and L3 underneath (same for R).
5. MONITOR: on M2 fold the top wall + its tabs. Glue M3 (bottom wall) and M4, M5 (side walls) to the back, then glue the screen M1 on top of all the outer tabs. Keep it flat under a book while it dries.
6. STAND: close neck S1, close foot S2 with bottom S3. Glue the neck into the foot, then the monitor onto the neck's front face (dashed box on the monitor back).
7. KEYBOARD / MOUSE: fold walls down, glue corner tabs, then glue K2 / U2 underneath.
8. BASE: glue tiles on the board (A = left, C = right, row 1 = front). Wrap the black strips around the edges.
9. Glue every part on its dotted outline. Big boxes stay firmer with crumpled paper or a card cross inside.

Layout on the 50 x 50 cm base (top view)

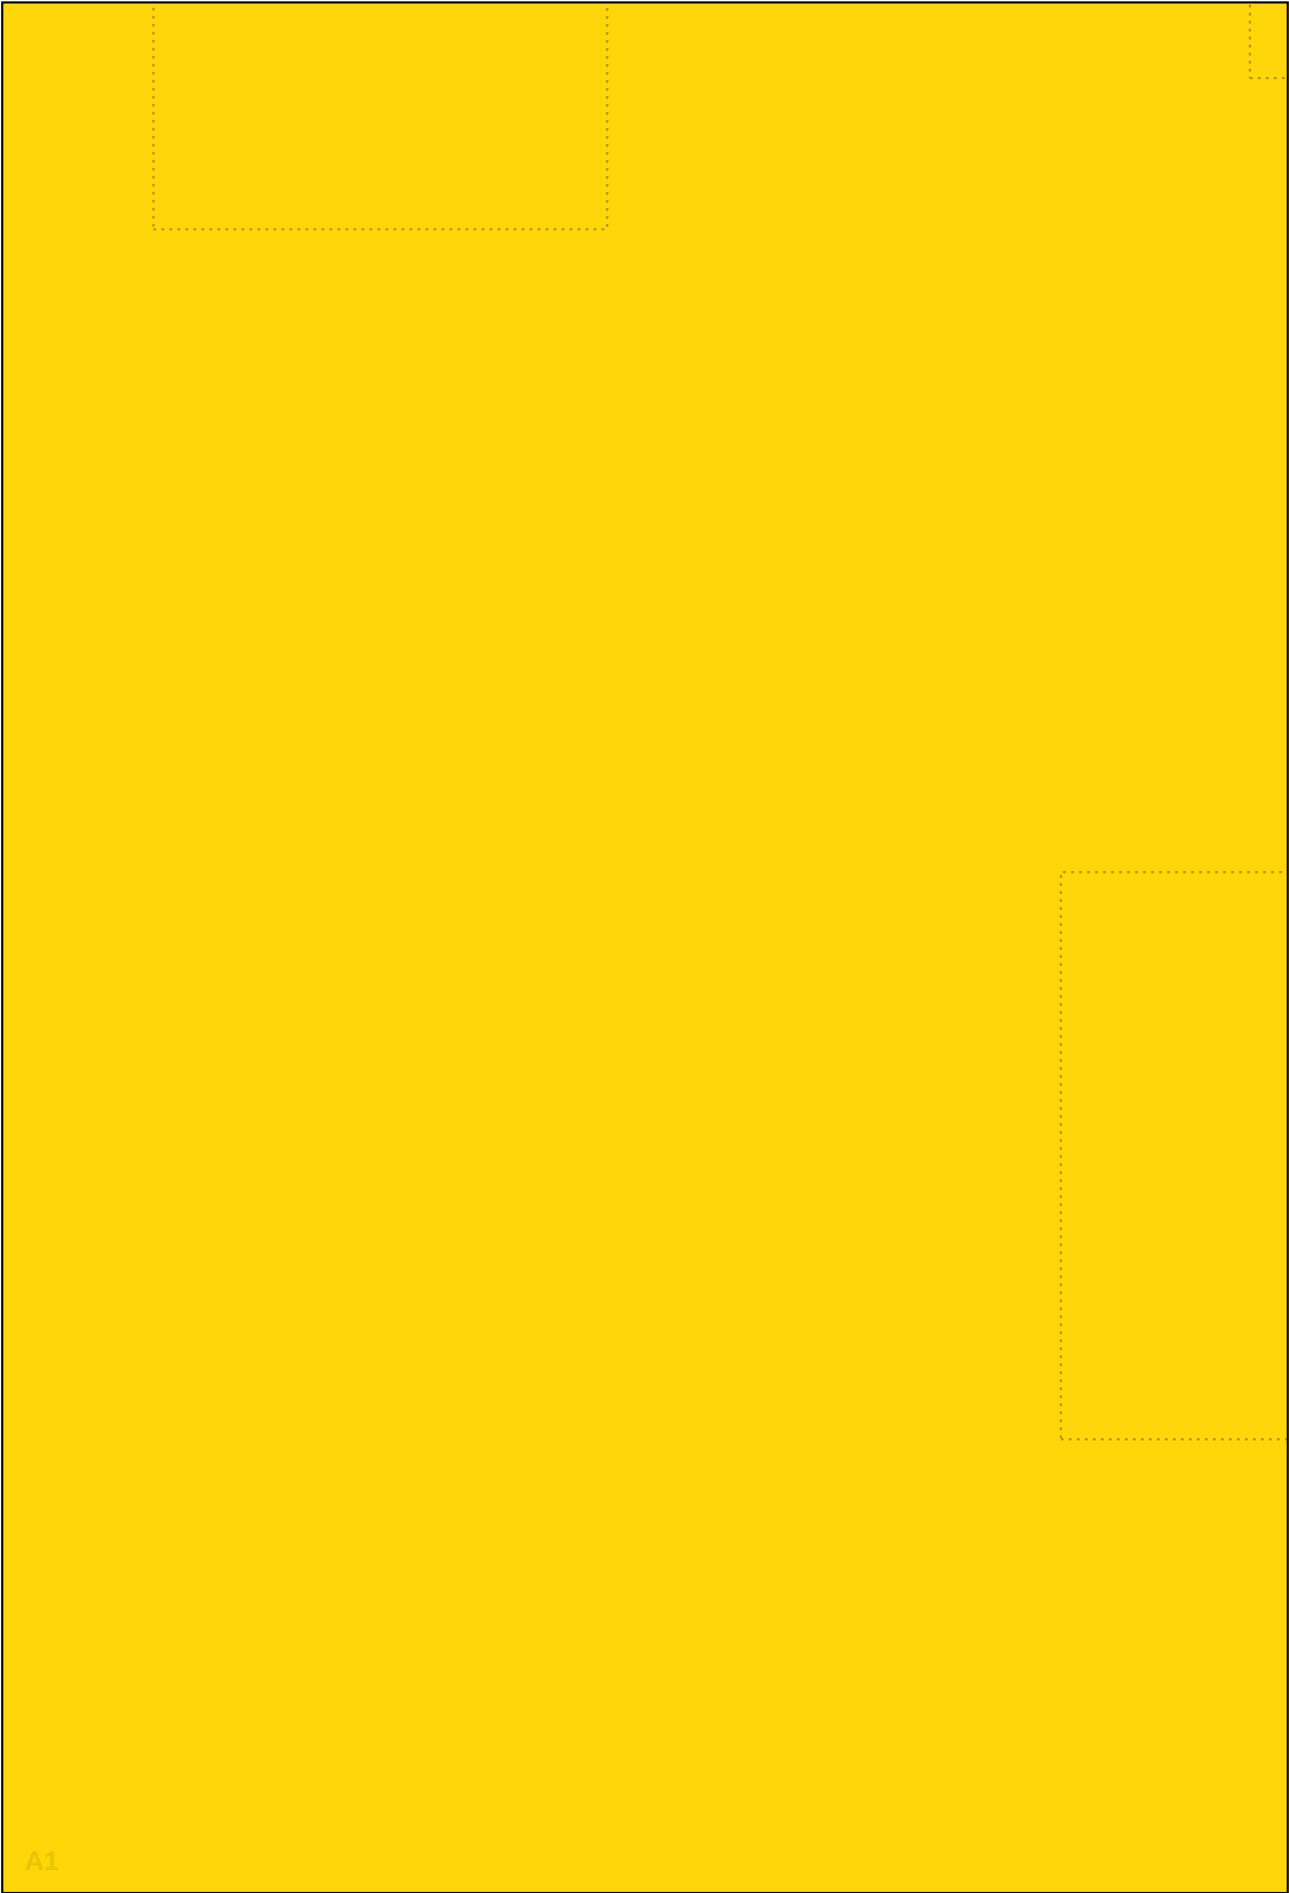

Tiles: A B C = left to right,
row 1 = front, row 2 = back.

Back right: tower
Middle: monitor on stand
Left + right: speakers
Front: keyboard + mouse

Front edge = bottom of the drawing.

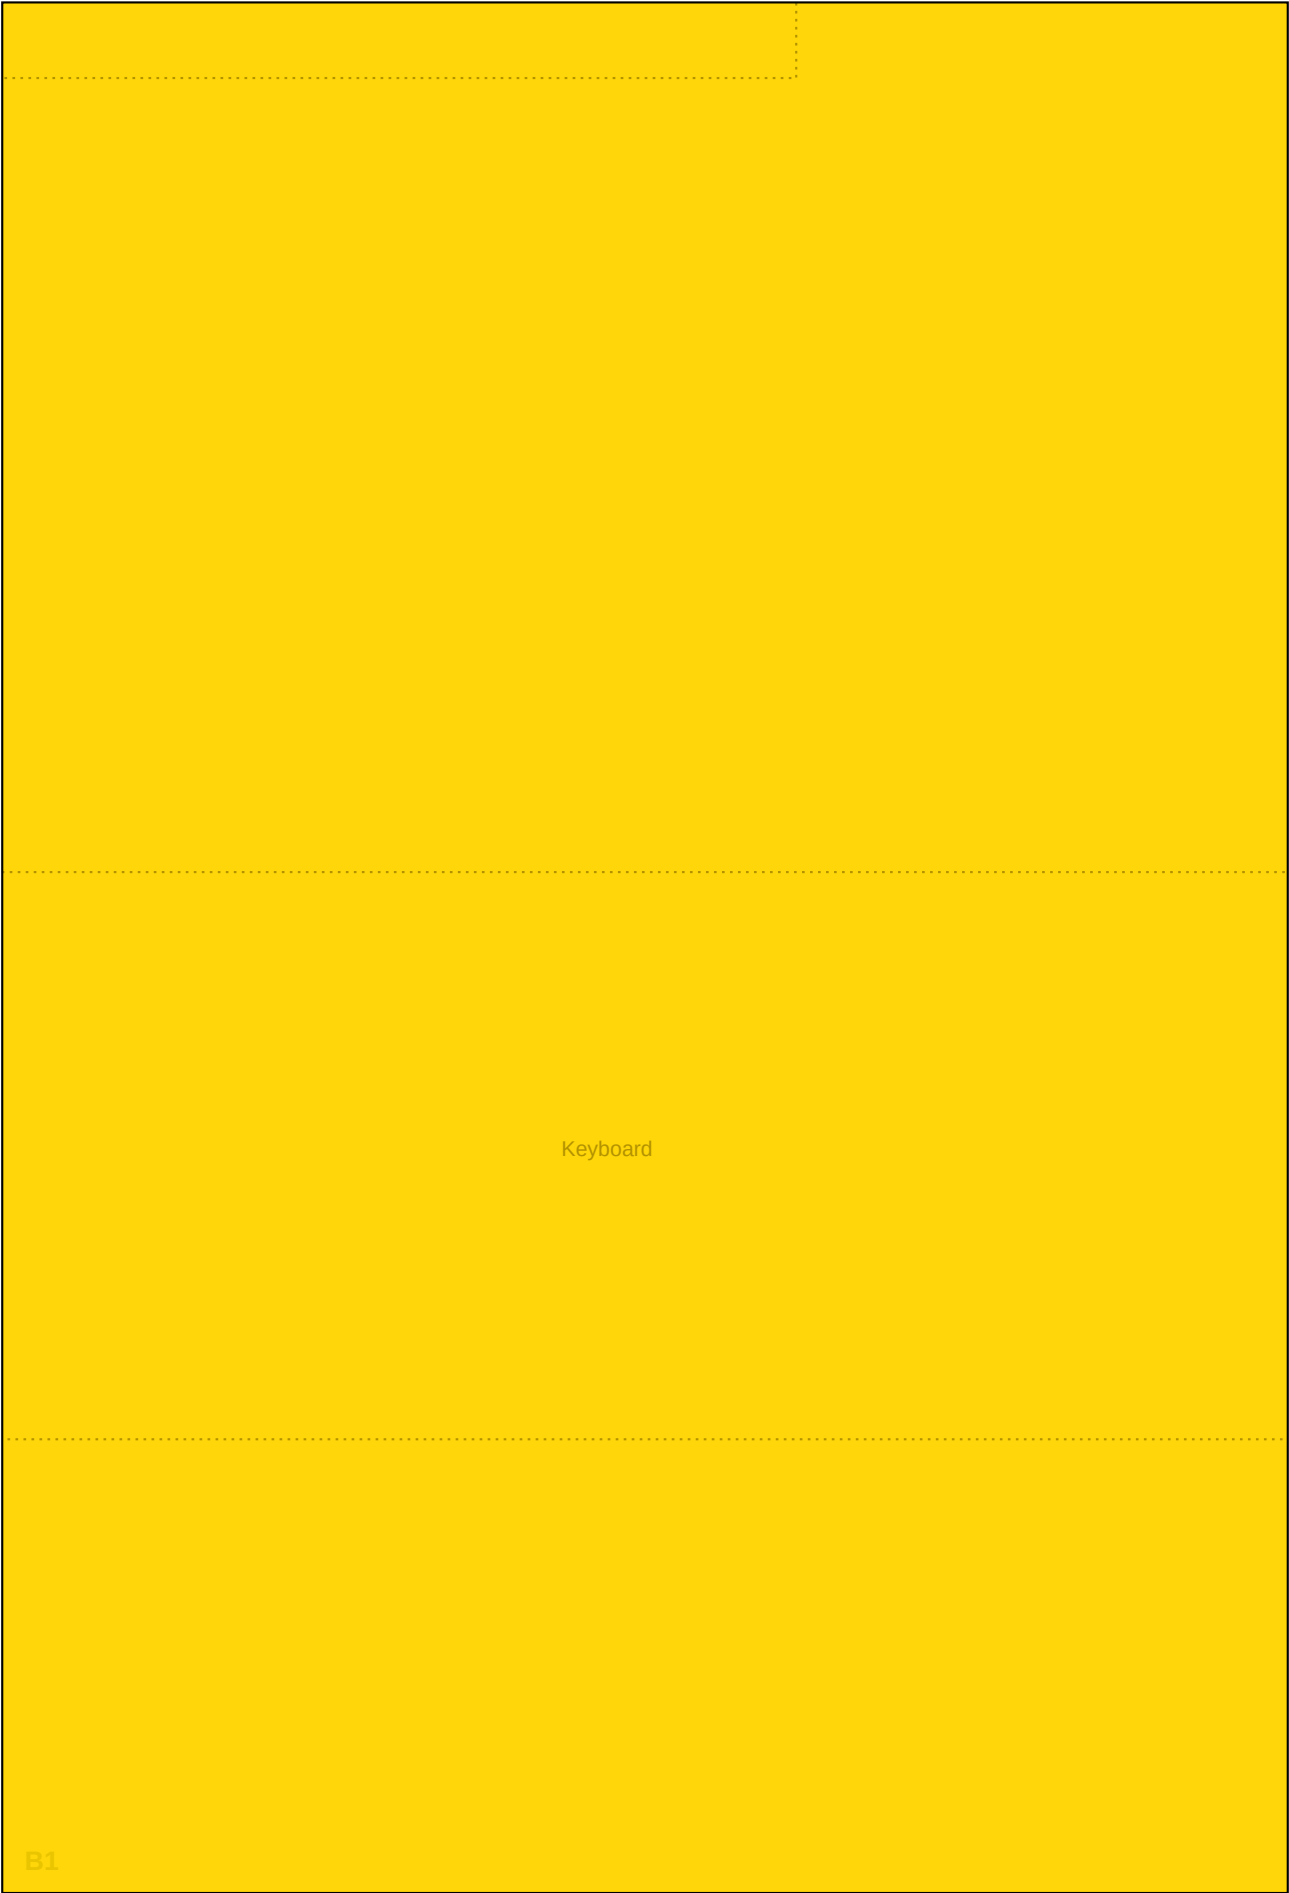

01 BASE TILE A1 (17 x 25 cm)

Cut on the black line, glue on the 50 x 50 board. Joins: right edge -> B1, top edge -> A2. Bottom of page = front.

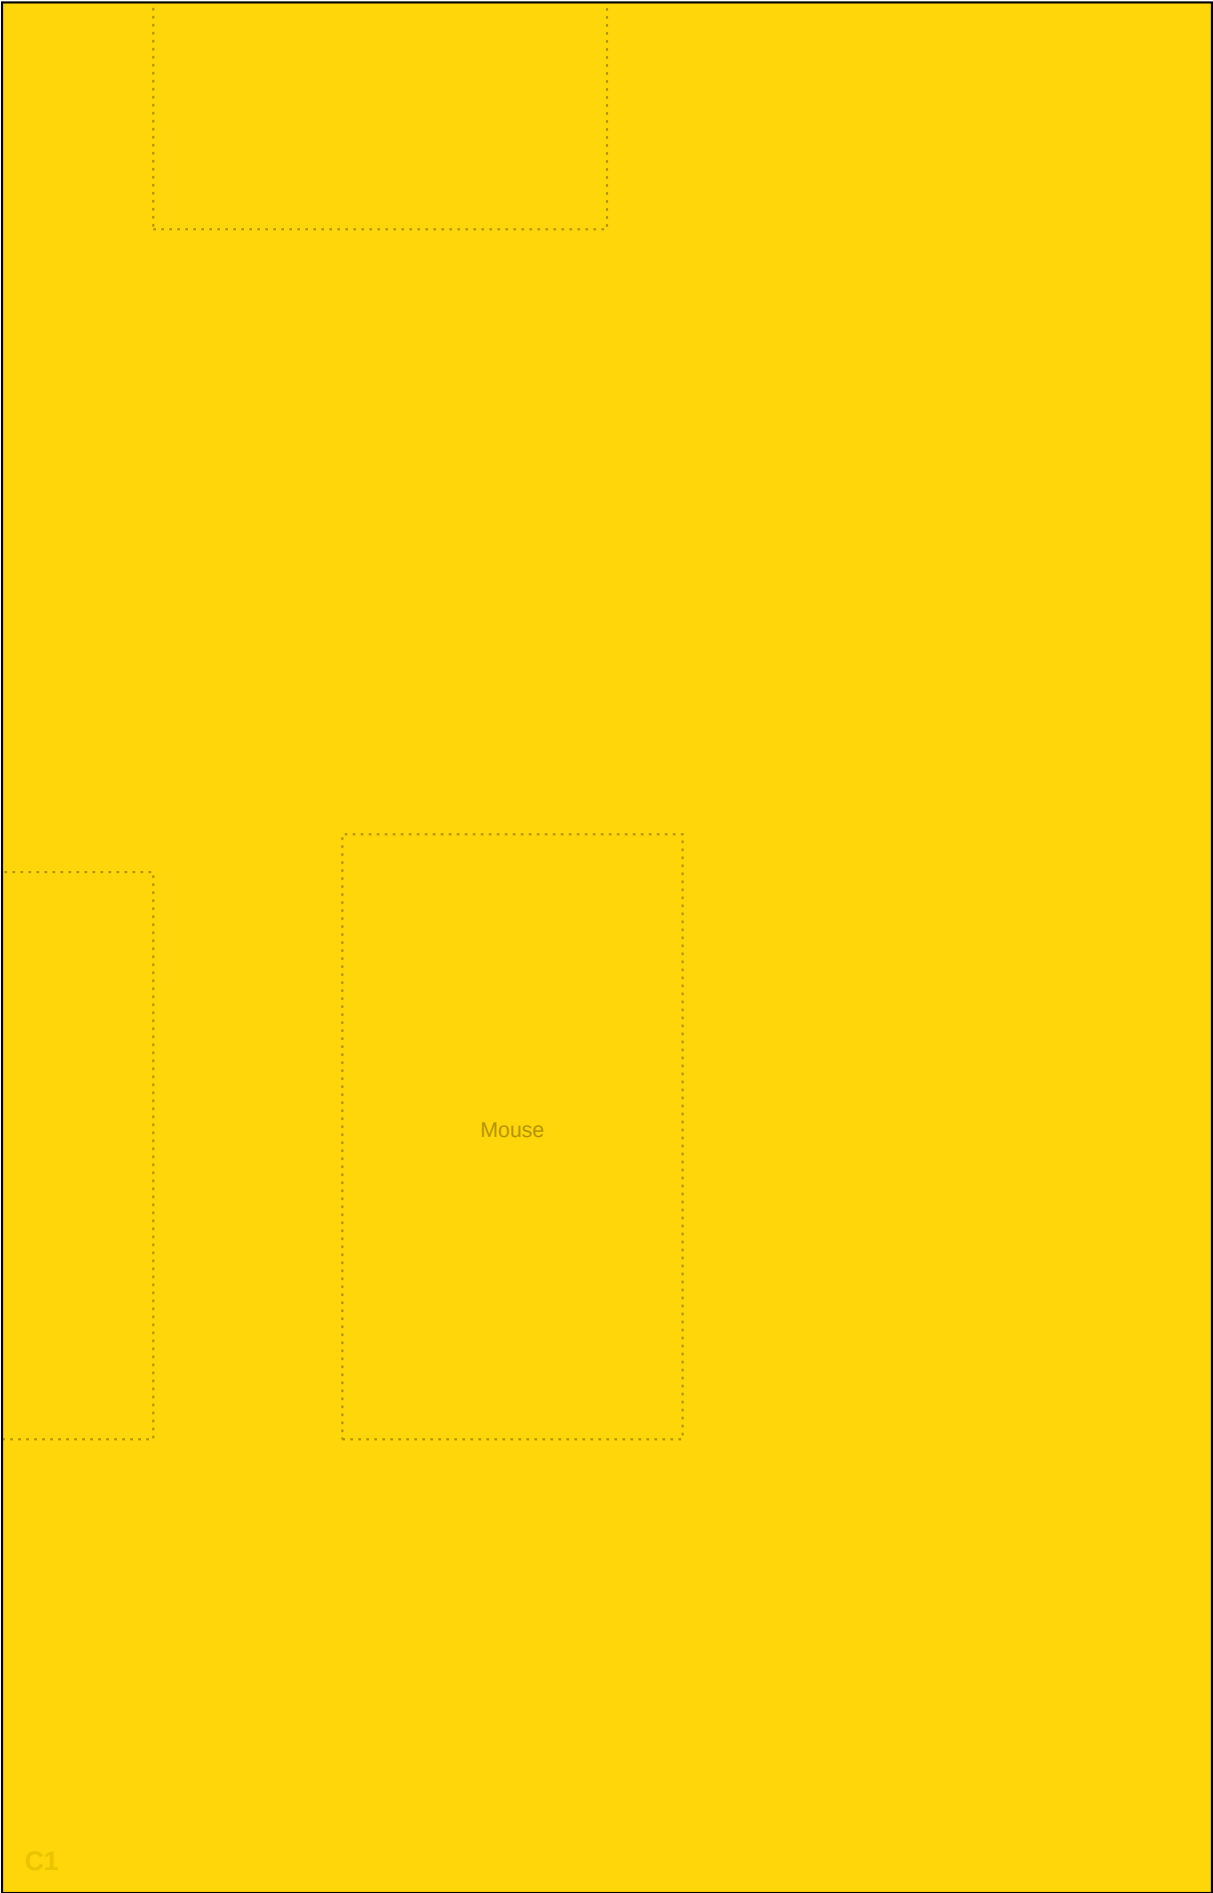

01 BASE TILE B1 (17 x 25 cm)

Cut on the black line, glue on the 50 x 50 board. Joins: left edge -> A1, right edge -> C1, top edge -> B2. Bottom of page = front.

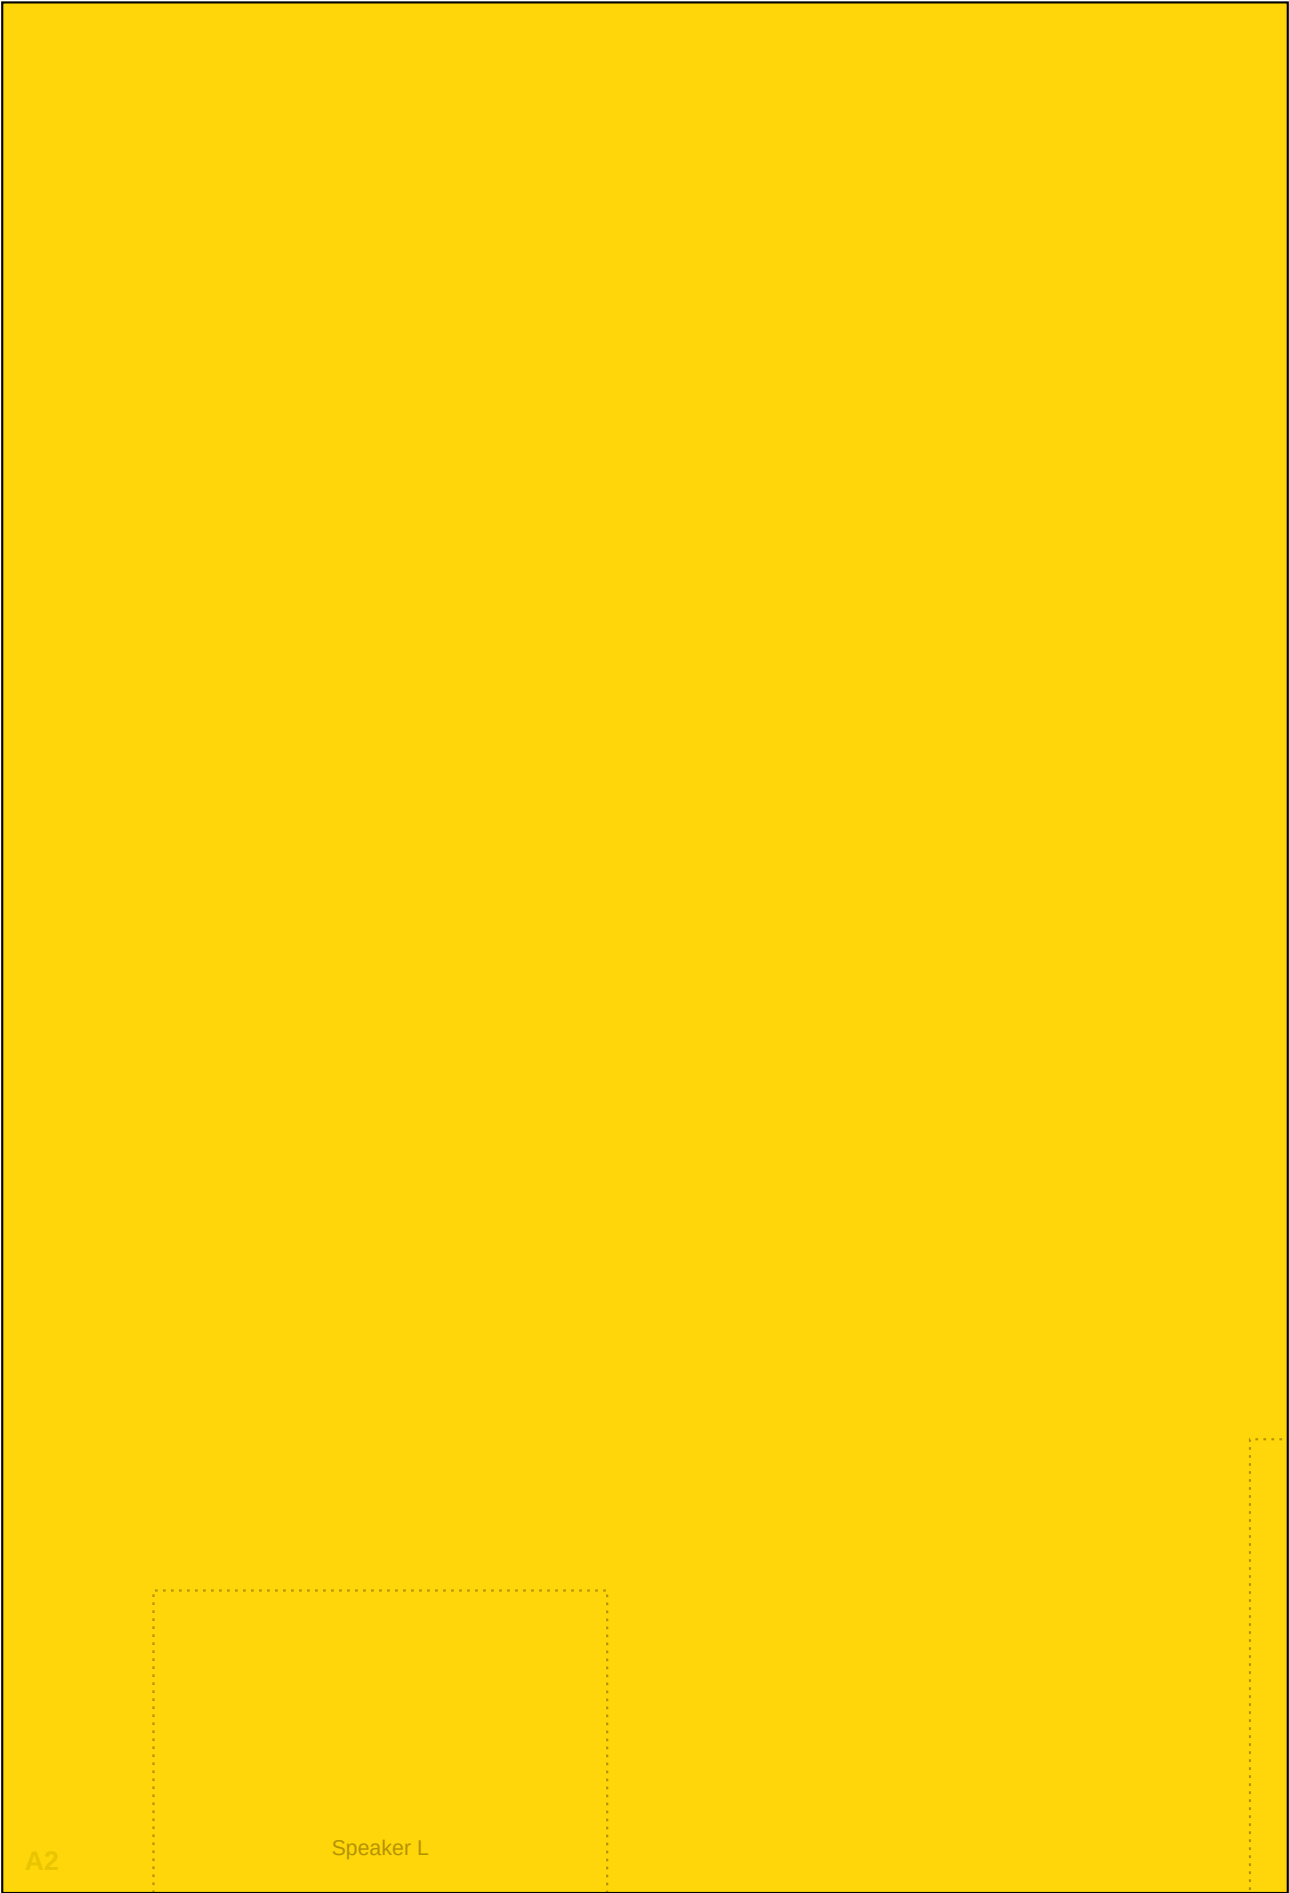

01 BASE TILE C1 (16 x 25 cm)

Cut on the black line, glue on the 50 x 50 board. Joins: left edge -> B1, top edge -> C2. Bottom of page = front.

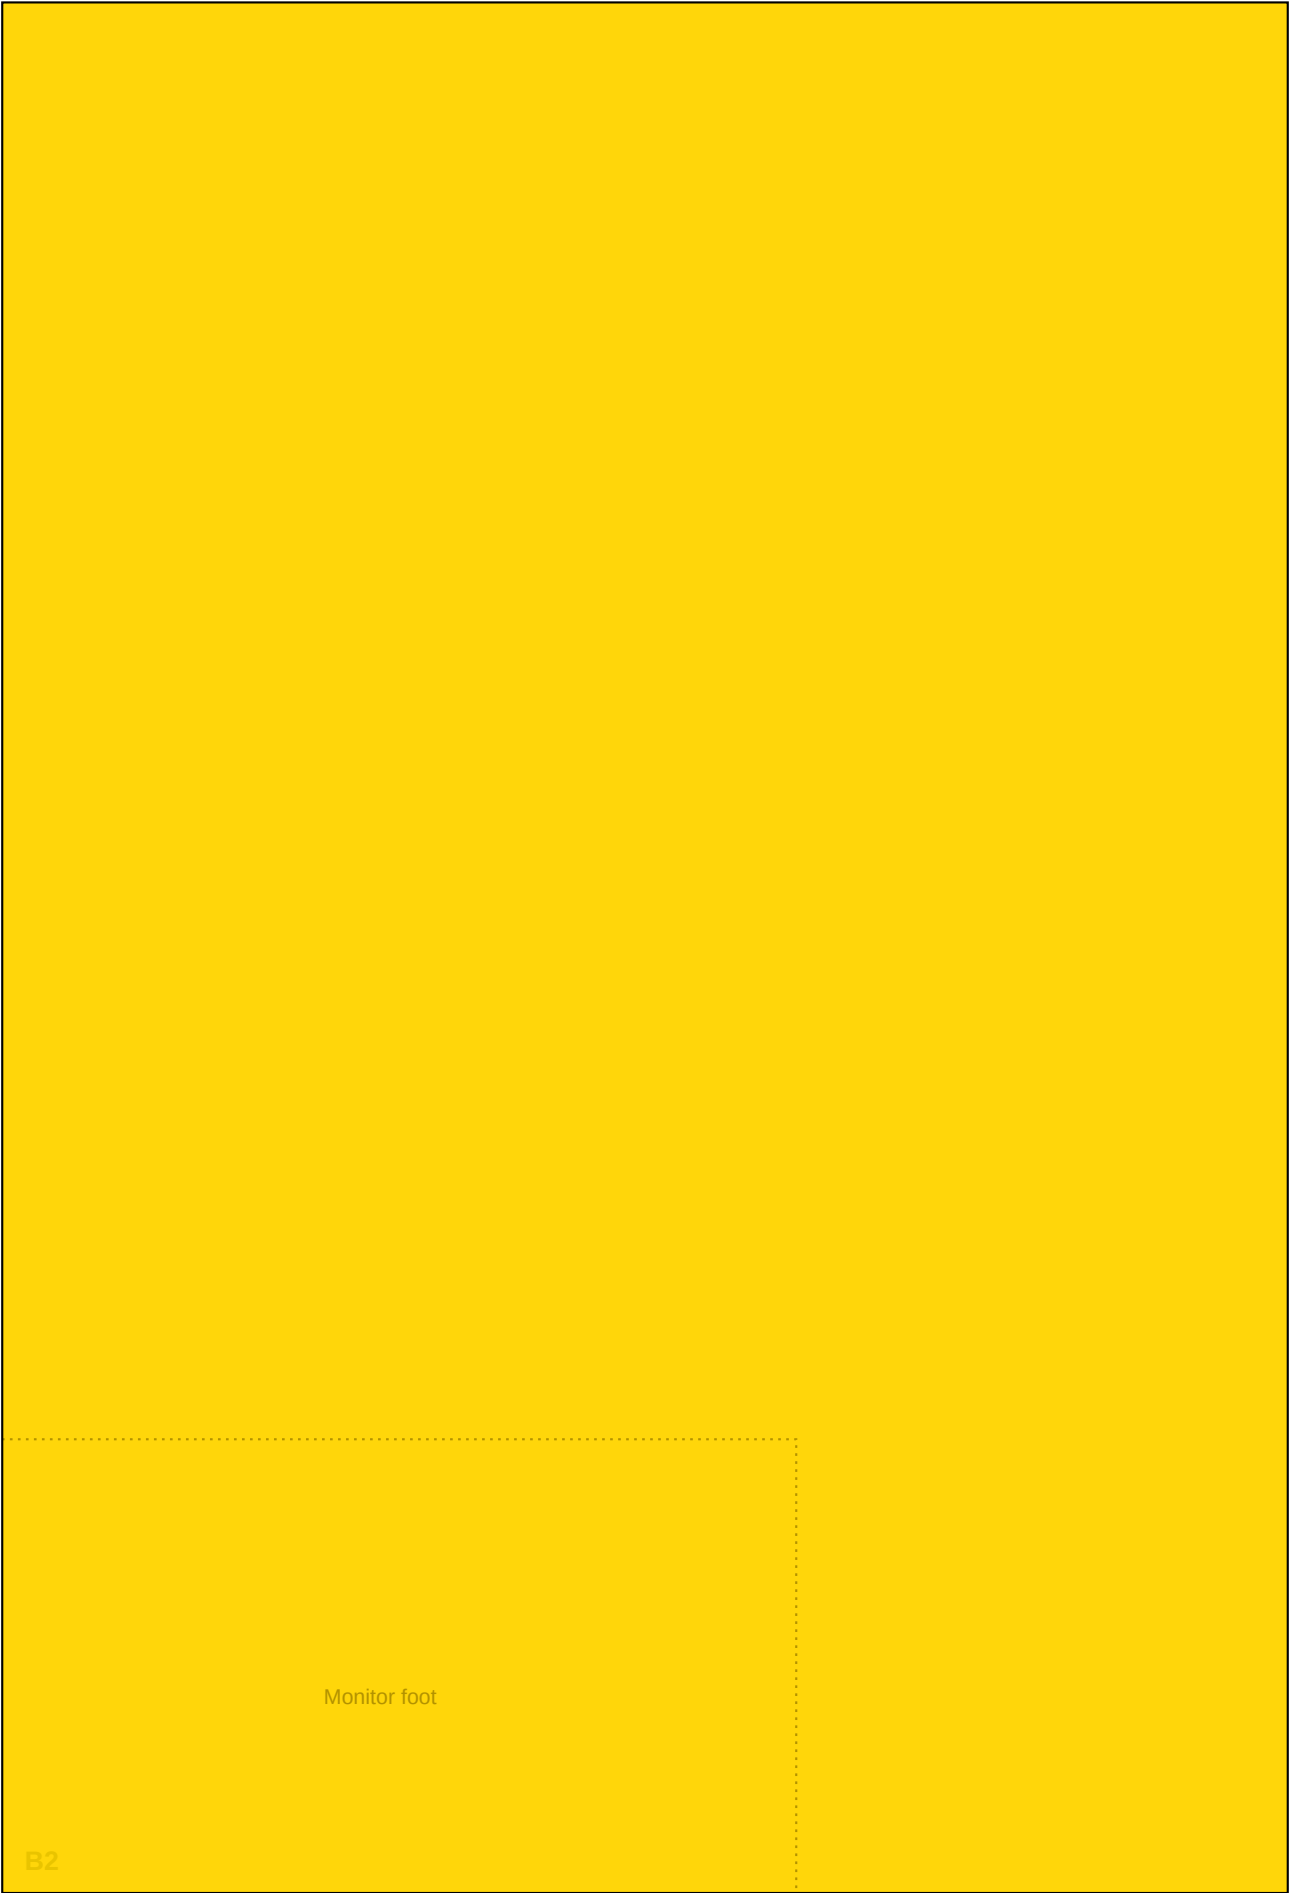

01 BASE TILE A2 (17 x 25 cm)

Cut on the black line, glue on the 50 x 50 board. Joins: right edge -> B2, bottom edge -> A1. Bottom of page = front.

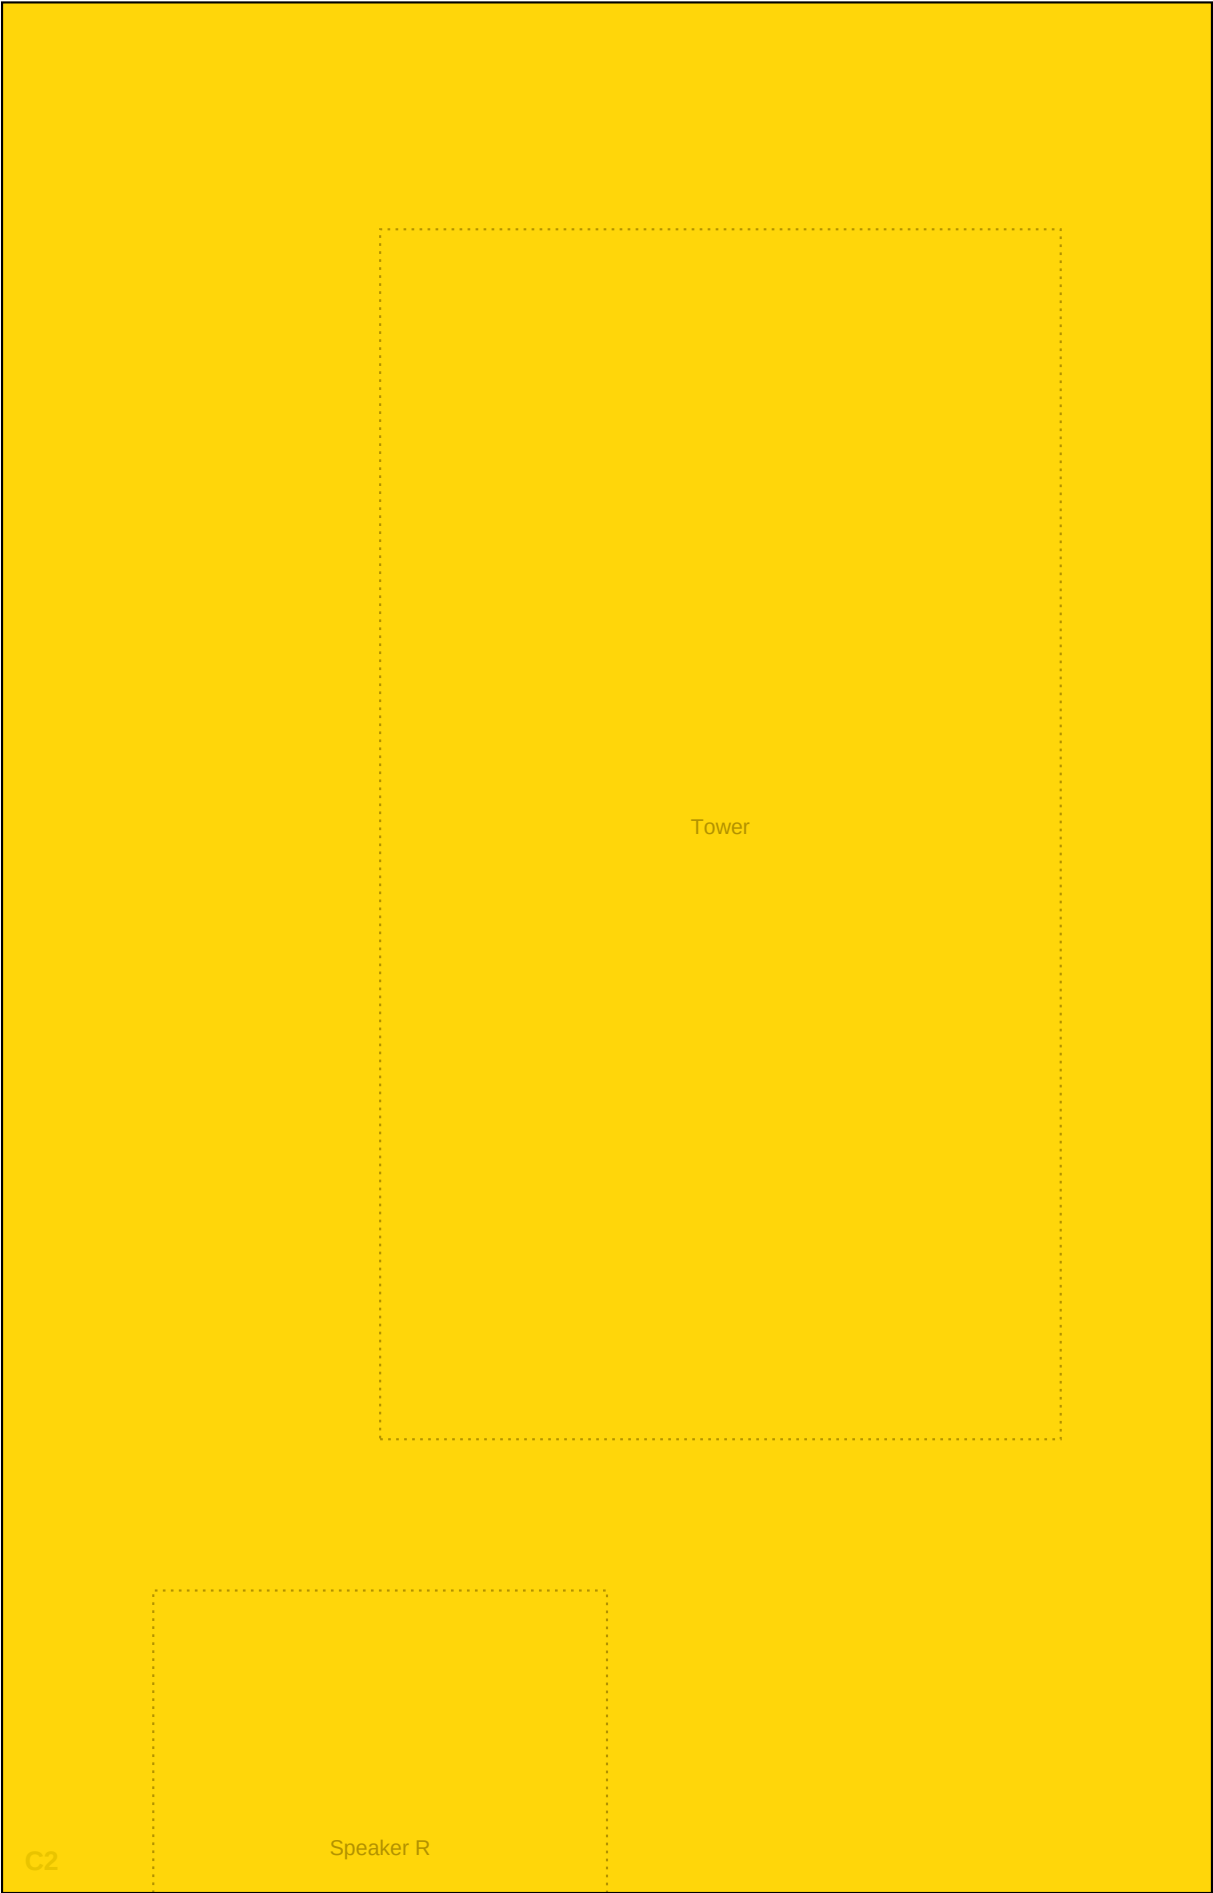

01 BASE TILE B2 (17 x 25 cm)

Cut on the black line, glue on the 50 x 50 board. Joins: left edge -> A2, right edge -> C2, bottom edge -> B1. Bottom of page = front.

01 BASE TILE C2 (16 x 25 cm)

Cut on the black line, glue on the 50 x 50 board. Joins: left edge -> B2, bottom edge -> C1. Bottom of page = front.

01 BASE EDGE STRIPS E1-E8

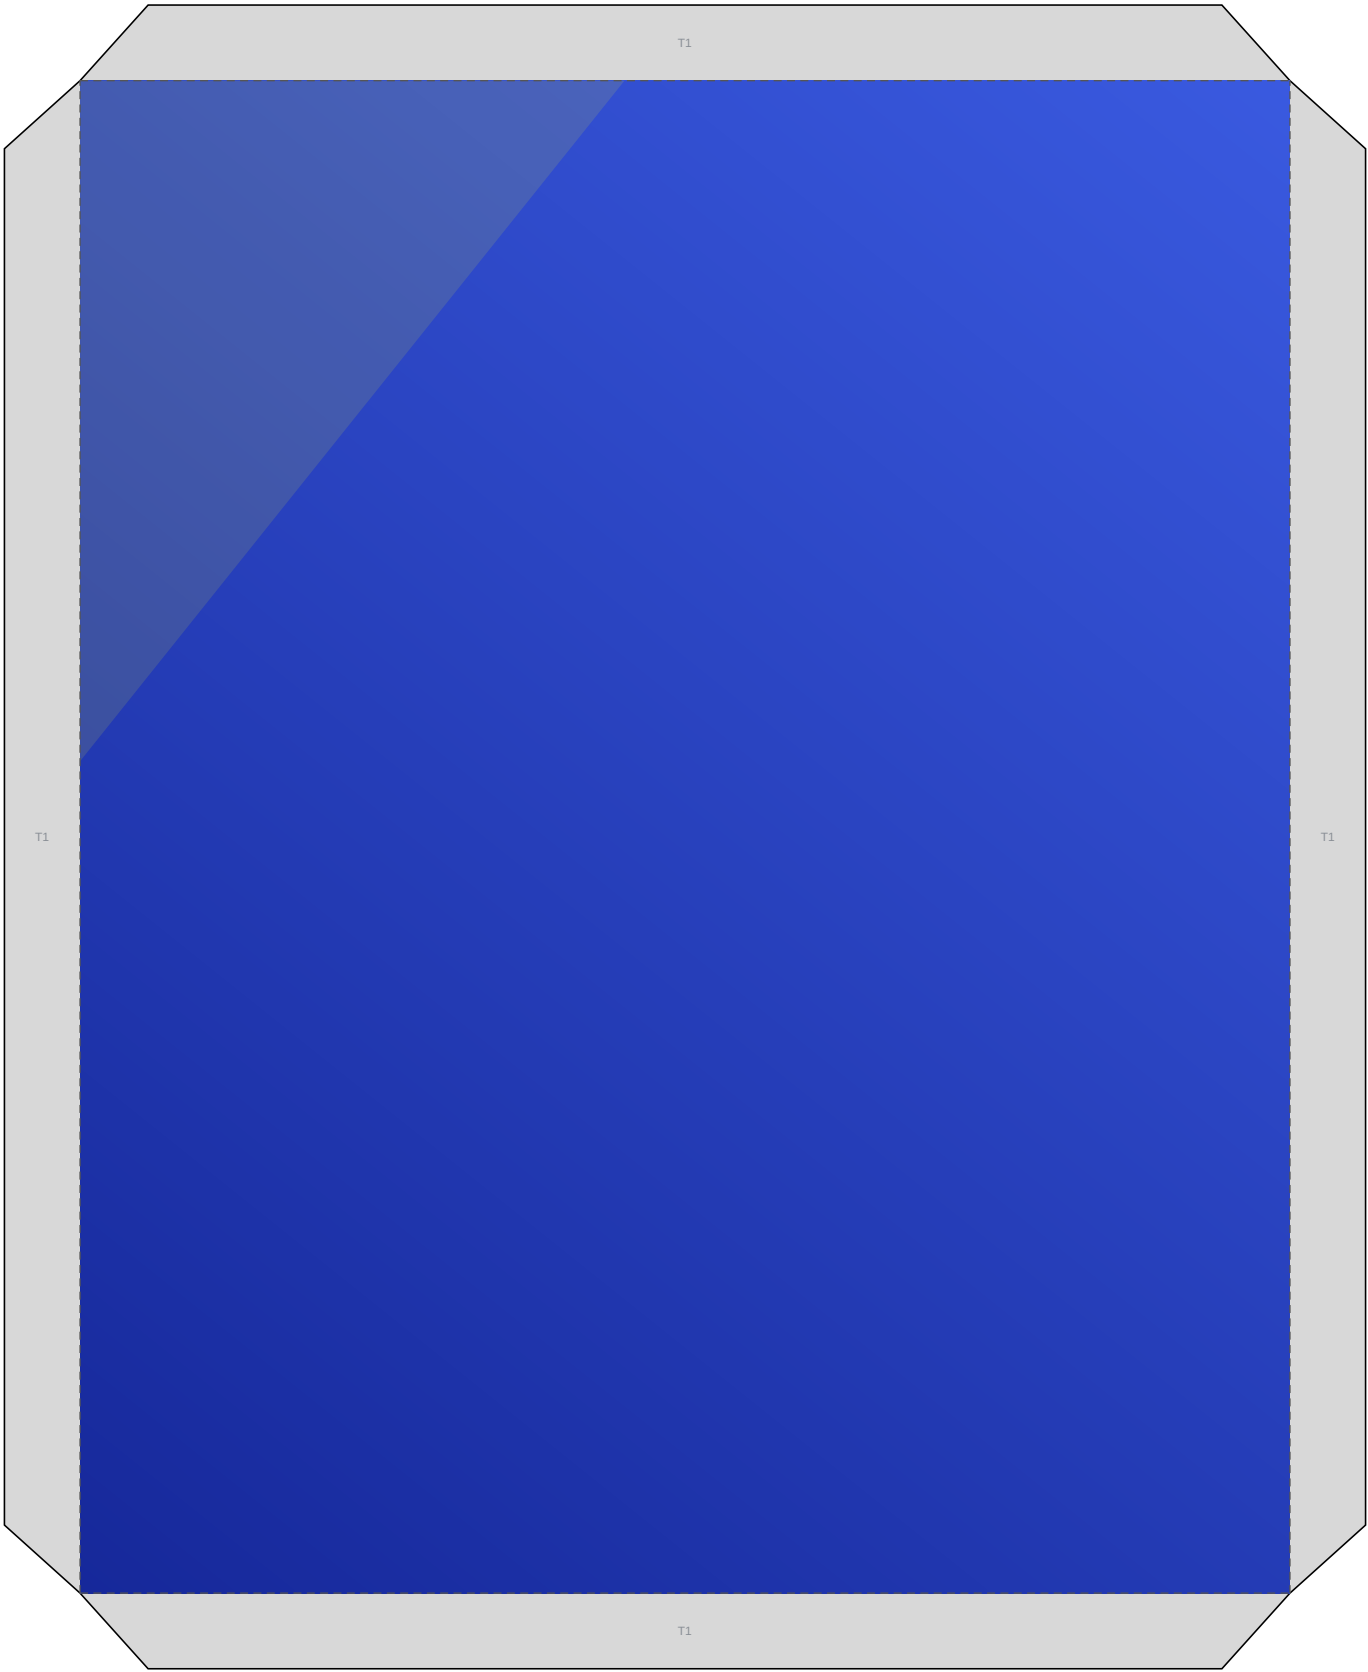

8 strips x 25 cm = 2 per edge (4 edges x 50 cm). Score the dashed line, wrap the strip around the board edge

02 PC TOWER - RIGHT SIDE (T1)

16 x 20 cm. Fold all 4 tabs inward. LEFT edge (on paper) meets the FRONT T3, right edge meets the BACK T4.
Top edge of the page = top of the tower.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

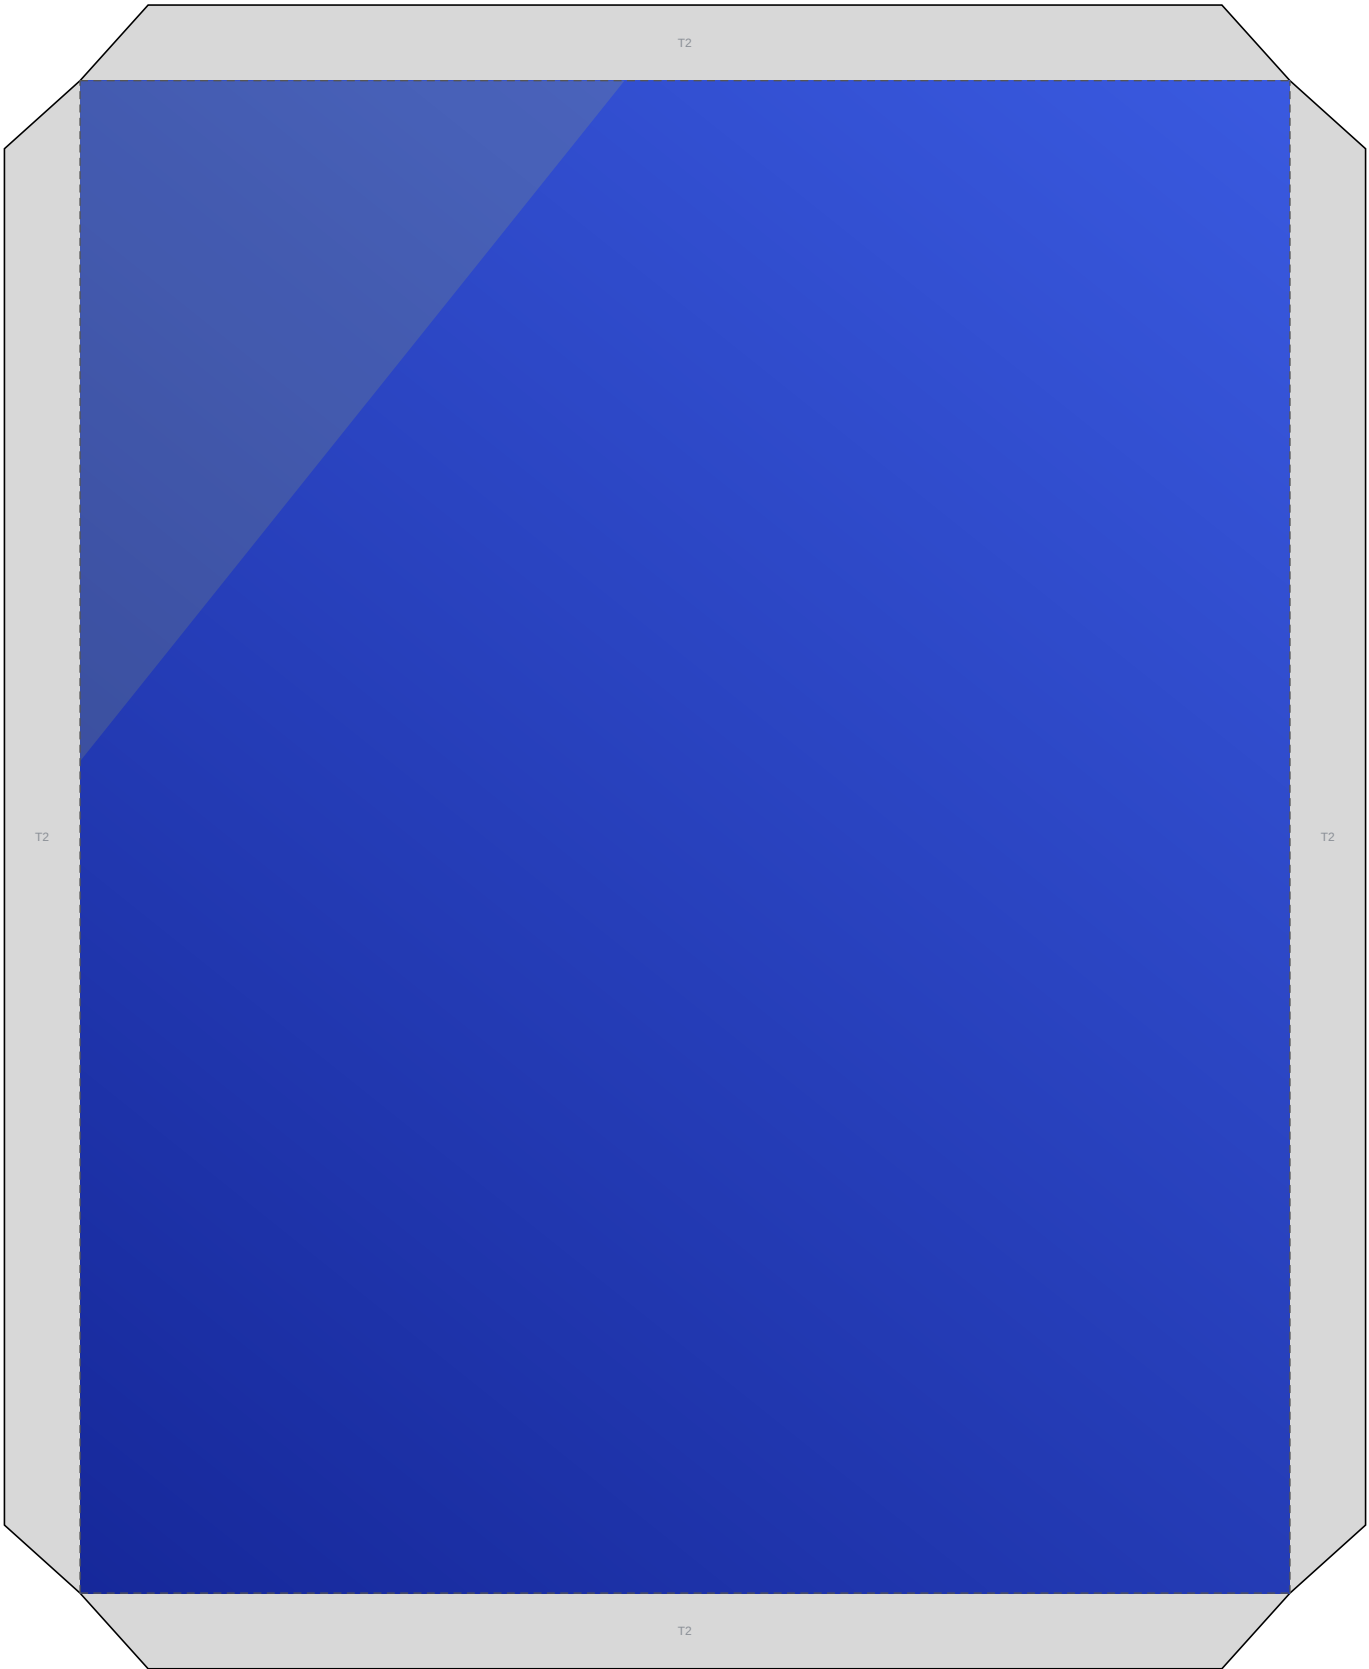

T1 tower right side

02 PC TOWER - LEFT SIDE (T2)

16 x 20 cm. Fold all 4 tabs inward. LEFT edge (on paper) meets the BACK T4, right edge meets the FRONT T3.
Top edge of the page = top of the tower.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

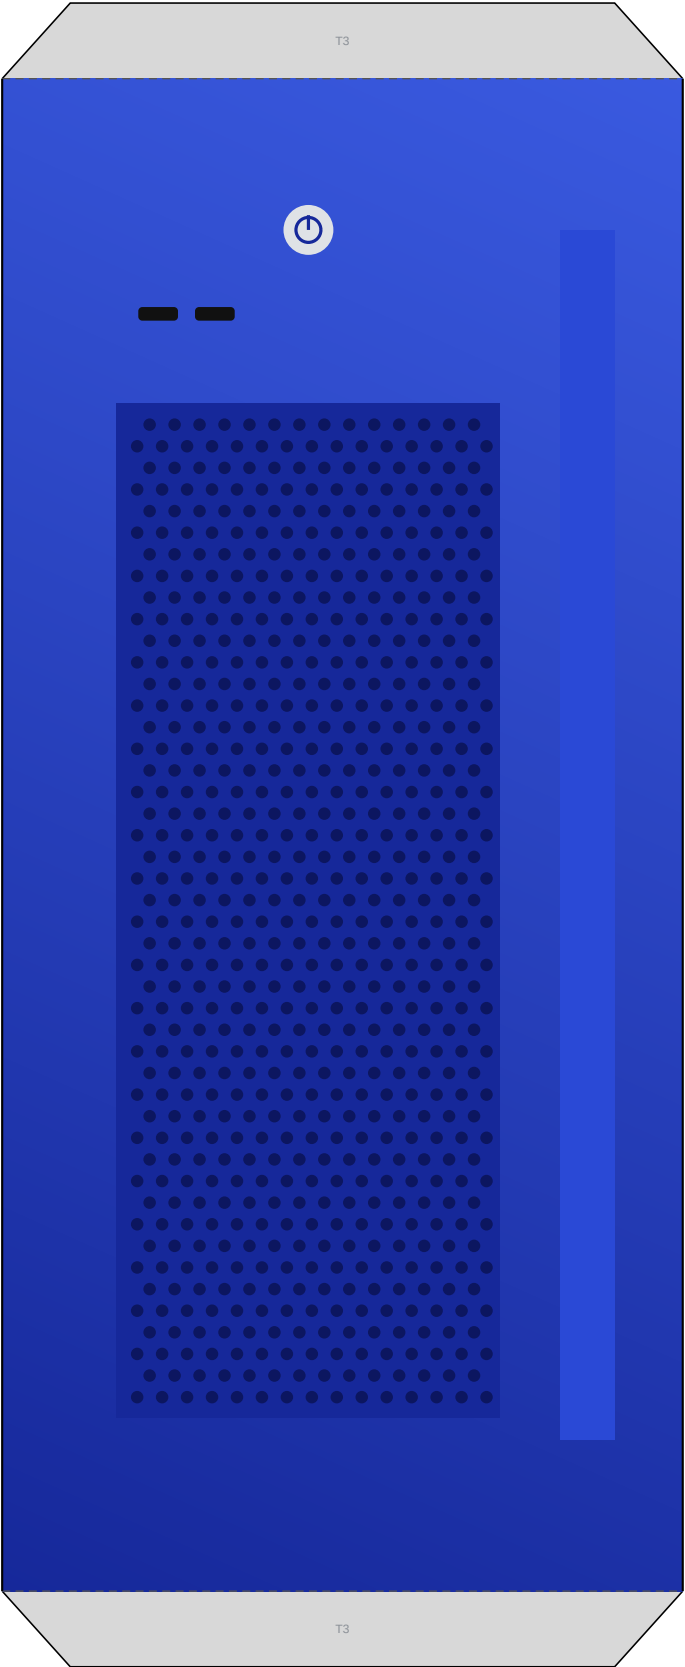

T2 tower left side

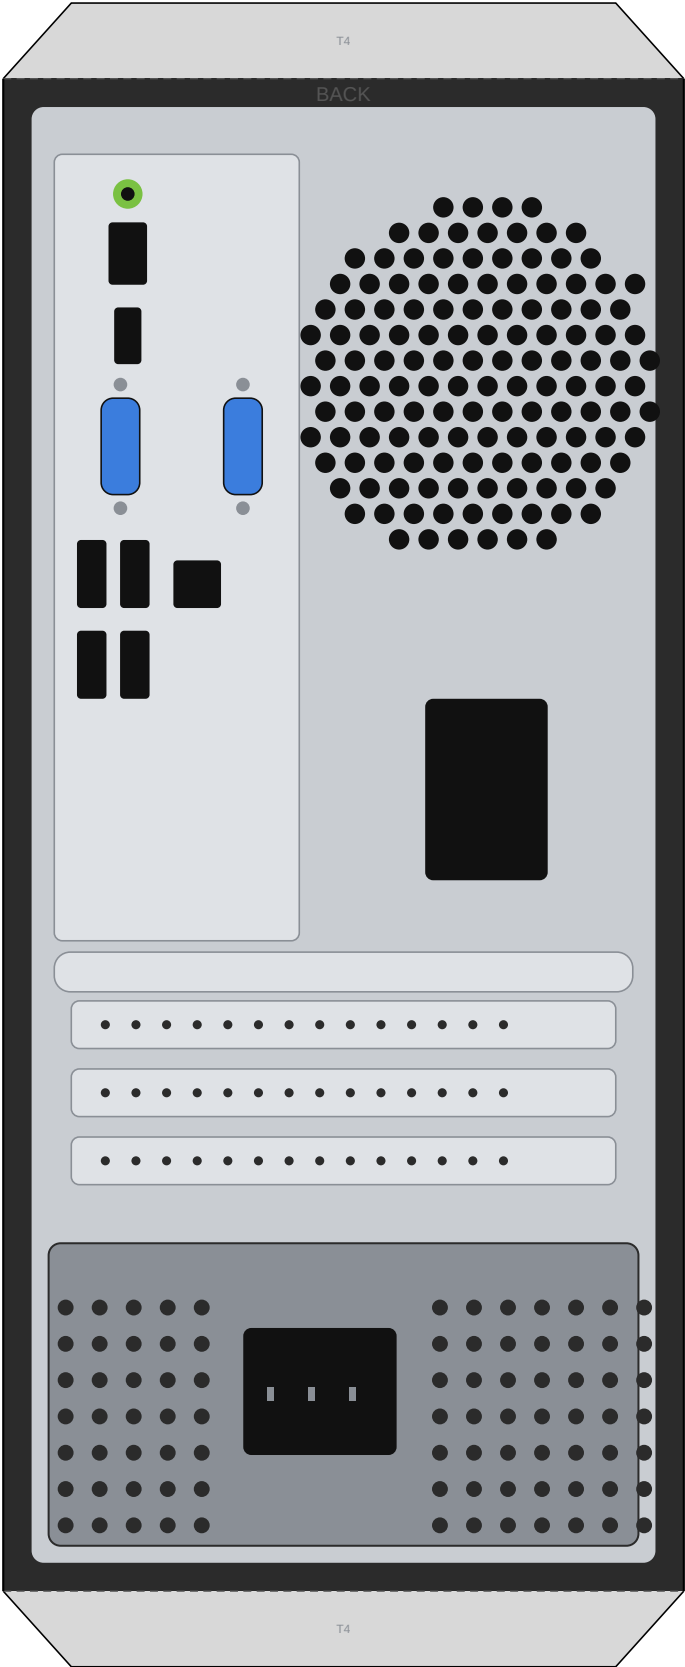

02 PC TOWER - FRONT (T3) + BACK (T4)

9 x 20 cm each. Their top/bottom tabs go under the top T5 and bottom T6.
Glue them onto the side tabs of T1 and T2.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

T3 front

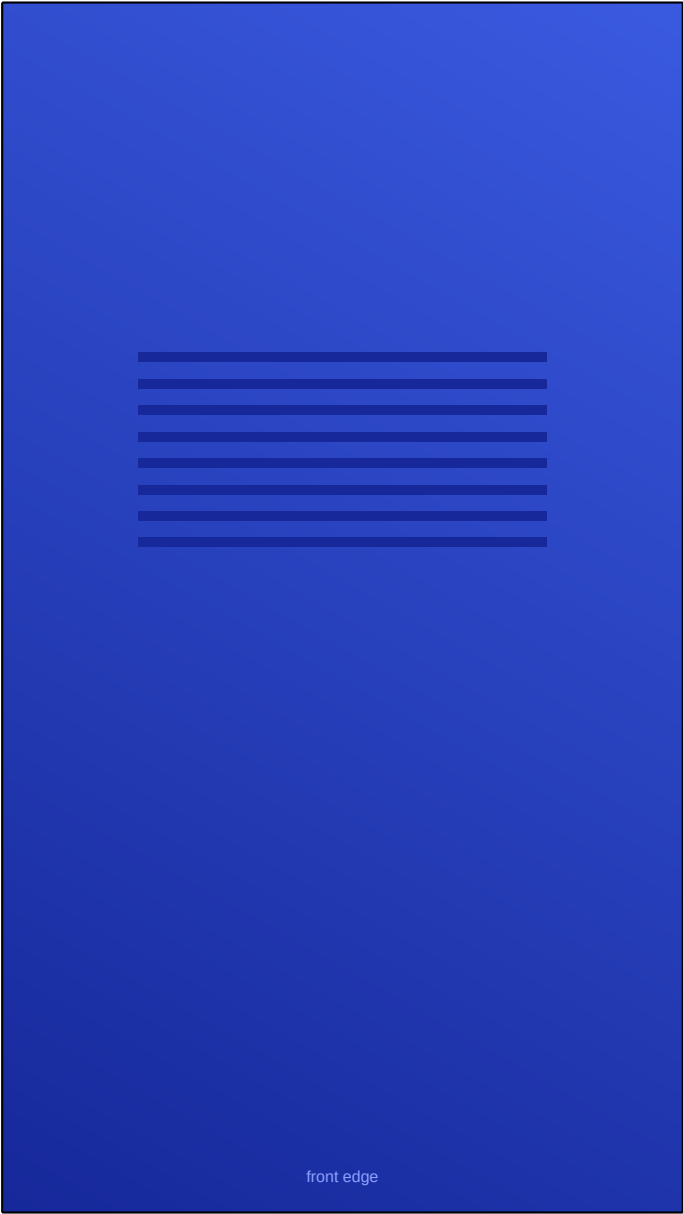

T4 back (ports)

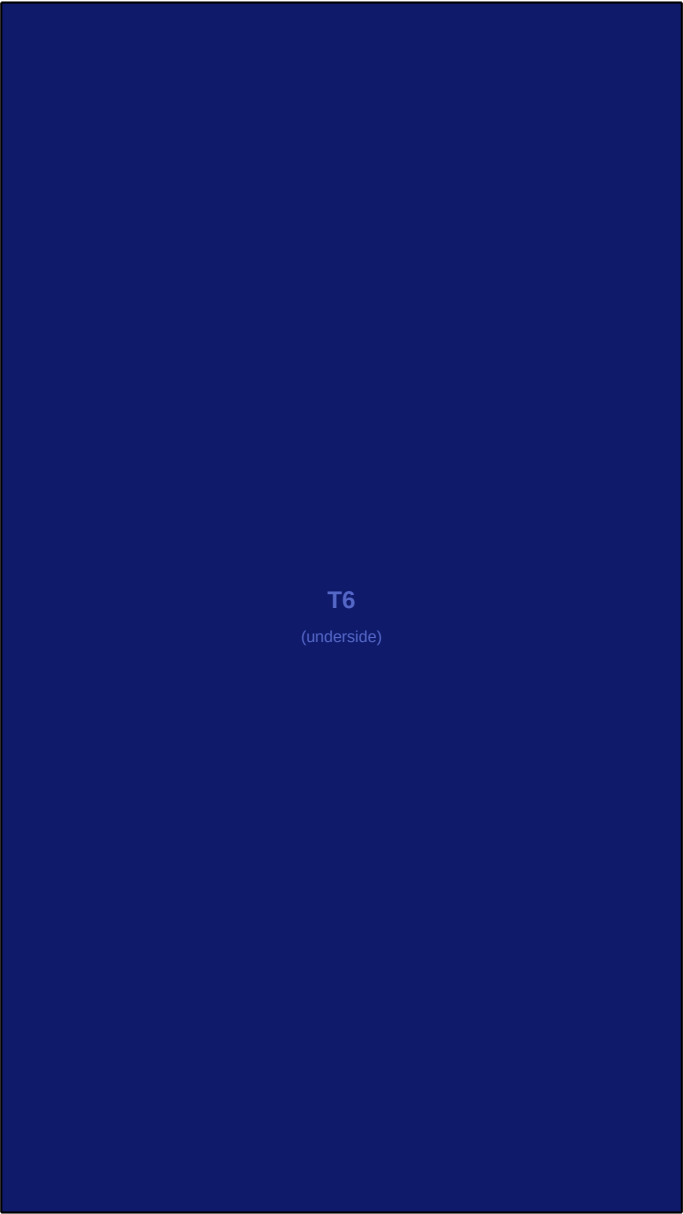

02 PC TOWER - TOP (T5) + BOTTOM (T6)

9 x 16 cm each. Glue last, onto the tabs of T1-T4.
Tip: before closing, put crumpled paper or a cardboard cross inside the tower.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

T5 top

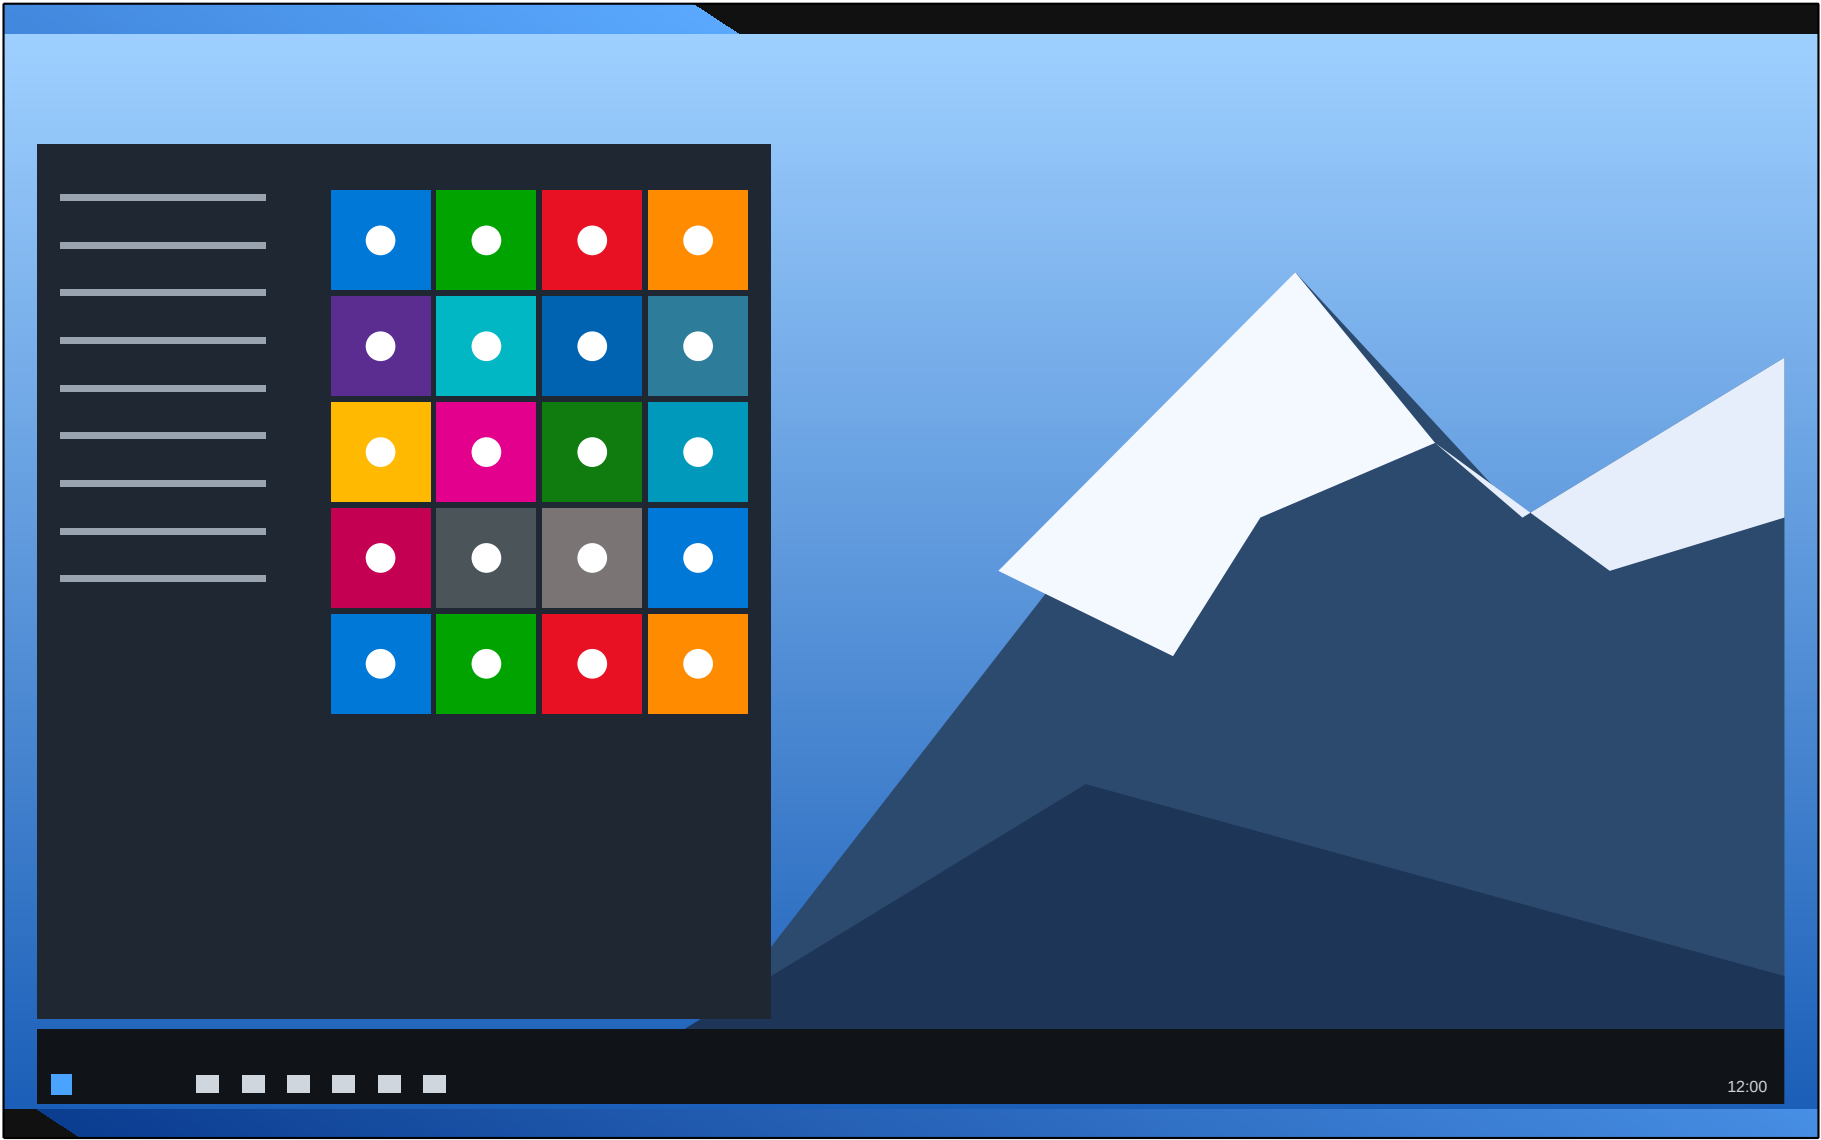

T6 bottom

03 MONITOR - SCREEN (M1)

24 x 15 cm. Glue LAST, onto the outer tabs of M2, M3, M4, M5.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

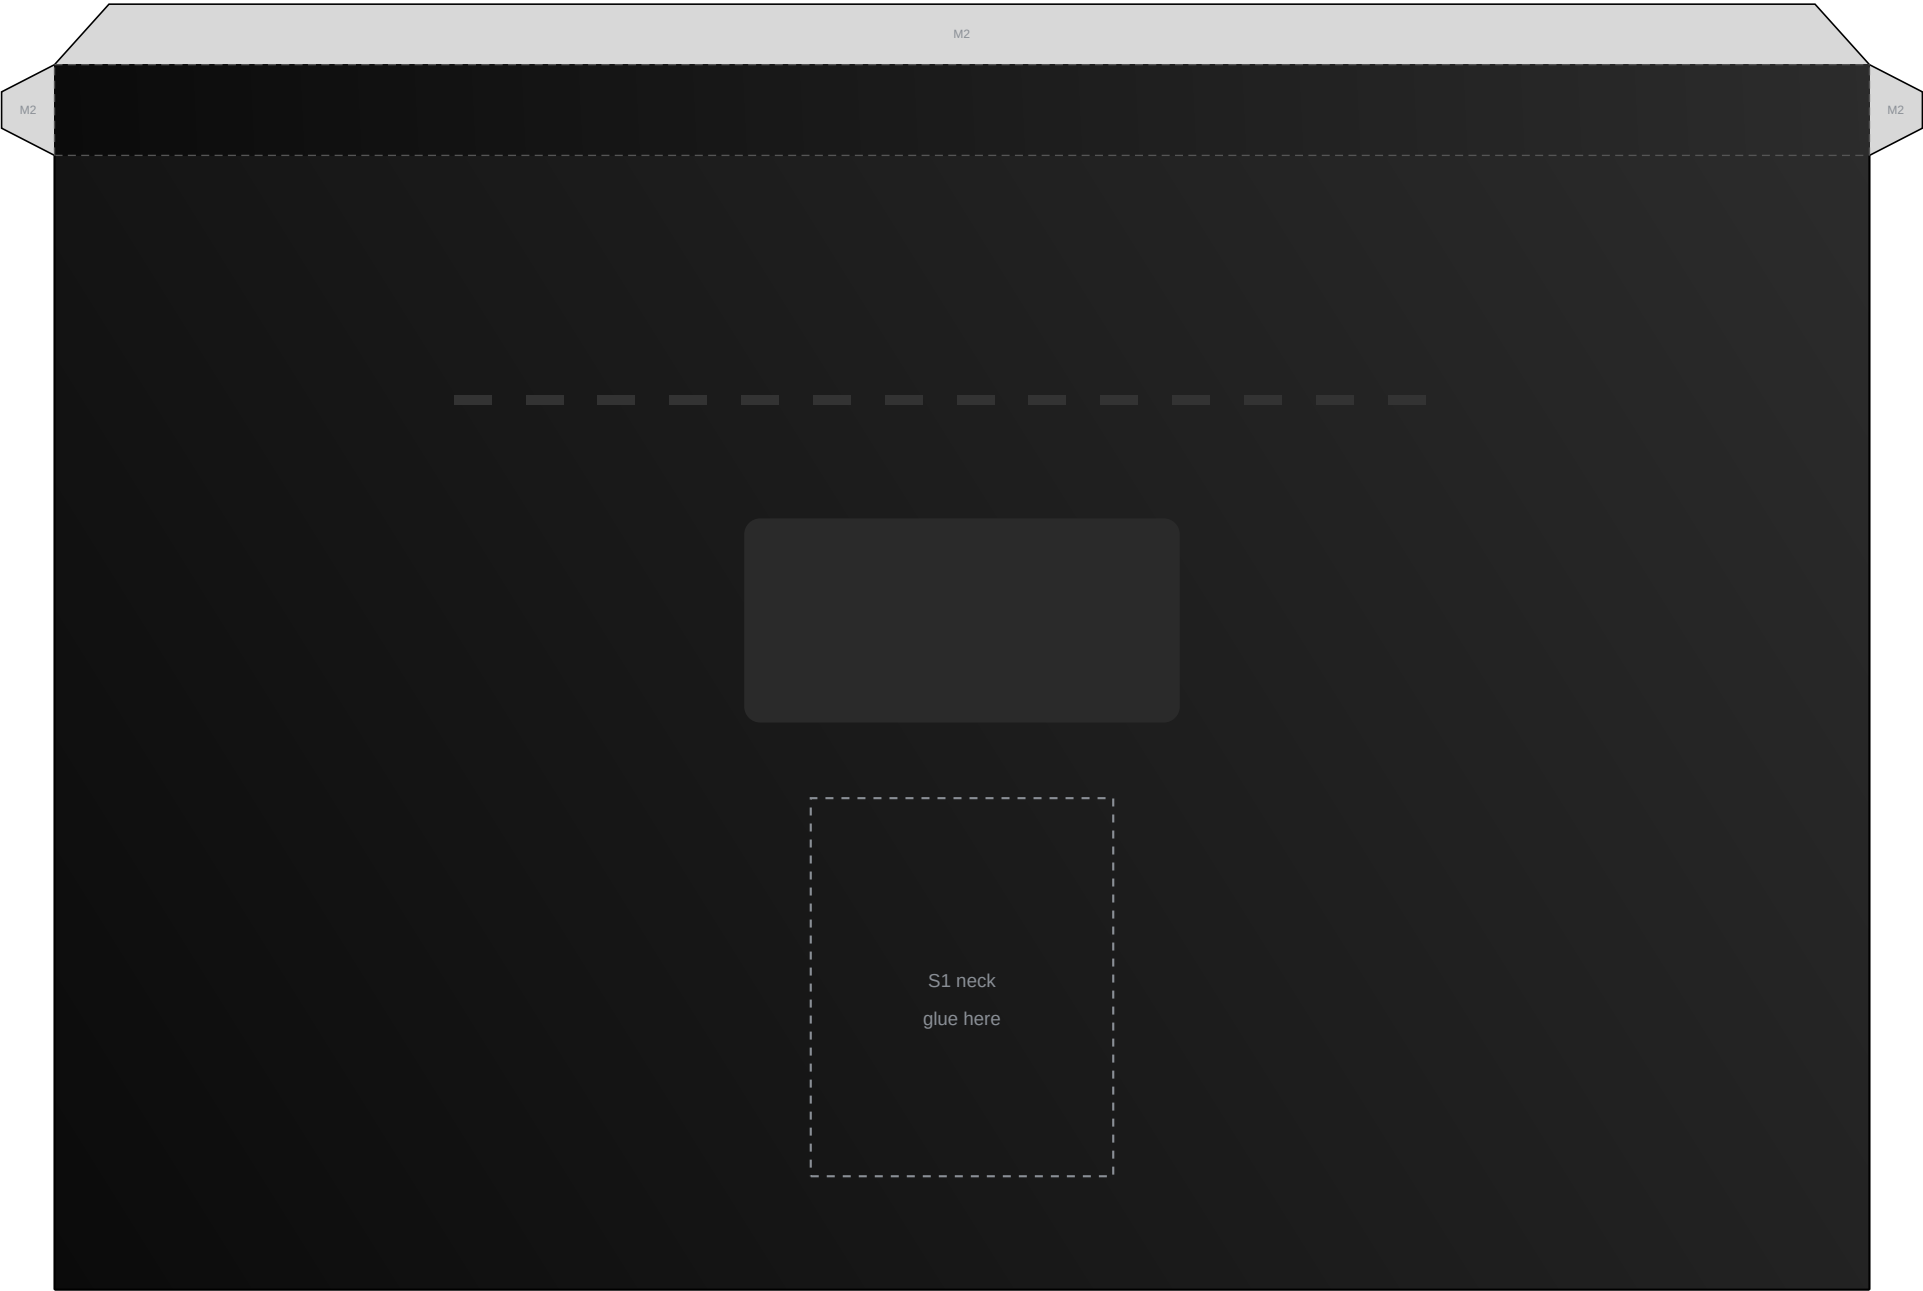

M1 screen

03 MONITOR - BACK + TOP WALL (M2)

Fold the top wall up 90 deg. Its end tabs glue inside the side walls M4/M5, its long tab under the screen M1.
Bottom wall M3 and side walls M4, M5 are in 07_small_parts.

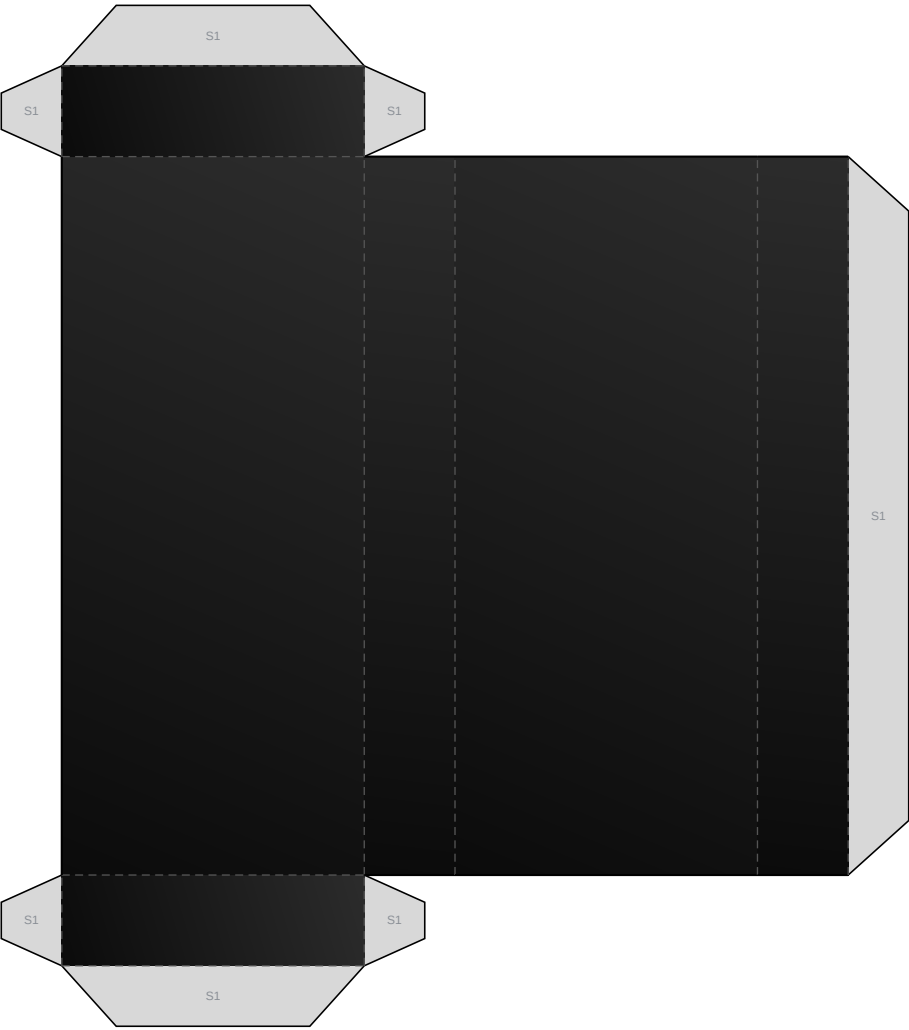

M2 monitor back

04 MONITOR STAND - NECK (S1) + FOOT (S2)

Neck 4 x 1.2 x 9.5 cm (closed box). Foot 11 x 7 x 0.6 cm, closed with S3 (in 07_small_parts).
A wooden lolly stick or rolled card inside the neck makes it strong.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

S1 neck

S2 foot (top + walls)

- - - - - fold (score first)

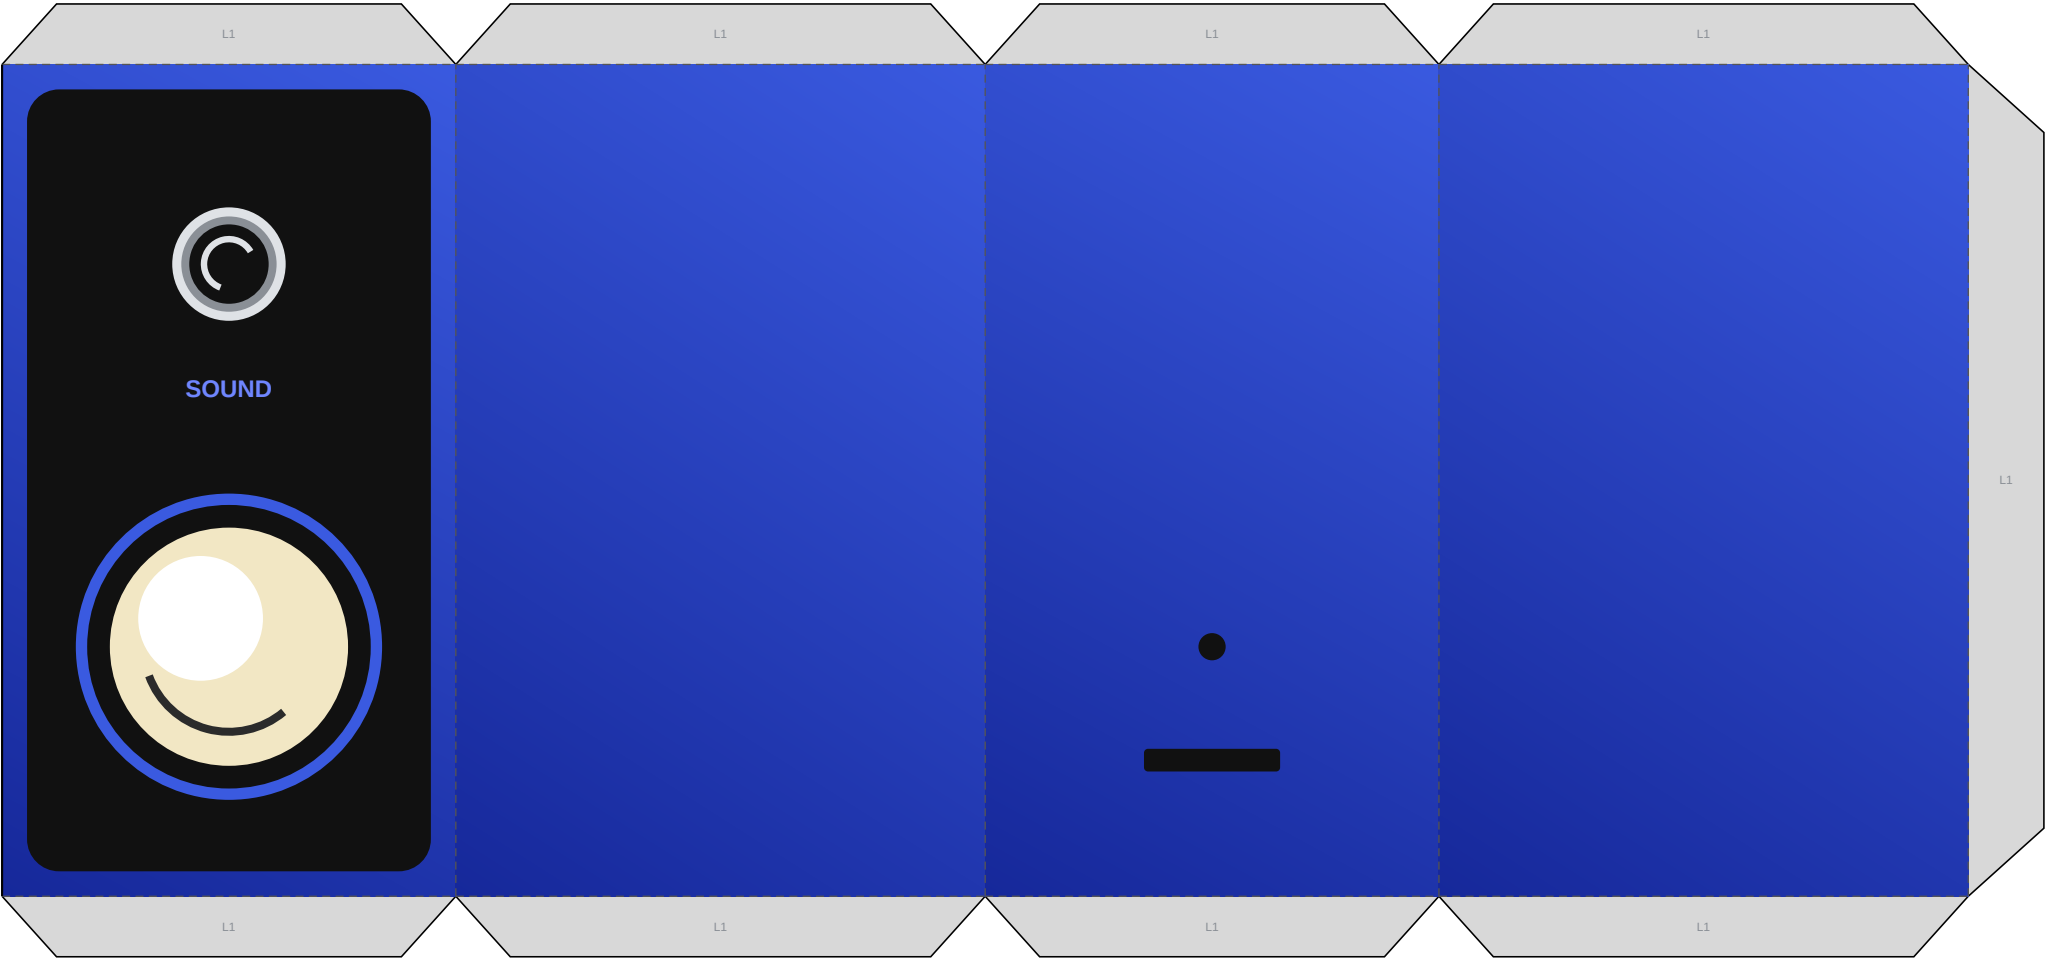

glue tab

5 cm (check)

05 SPEAKER LEFT - WALLS (L1)

Front | right | back | left. Glue the end tab inside the front edge to make a tube,
then glue top L2 and bottom L3 onto the small tabs.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

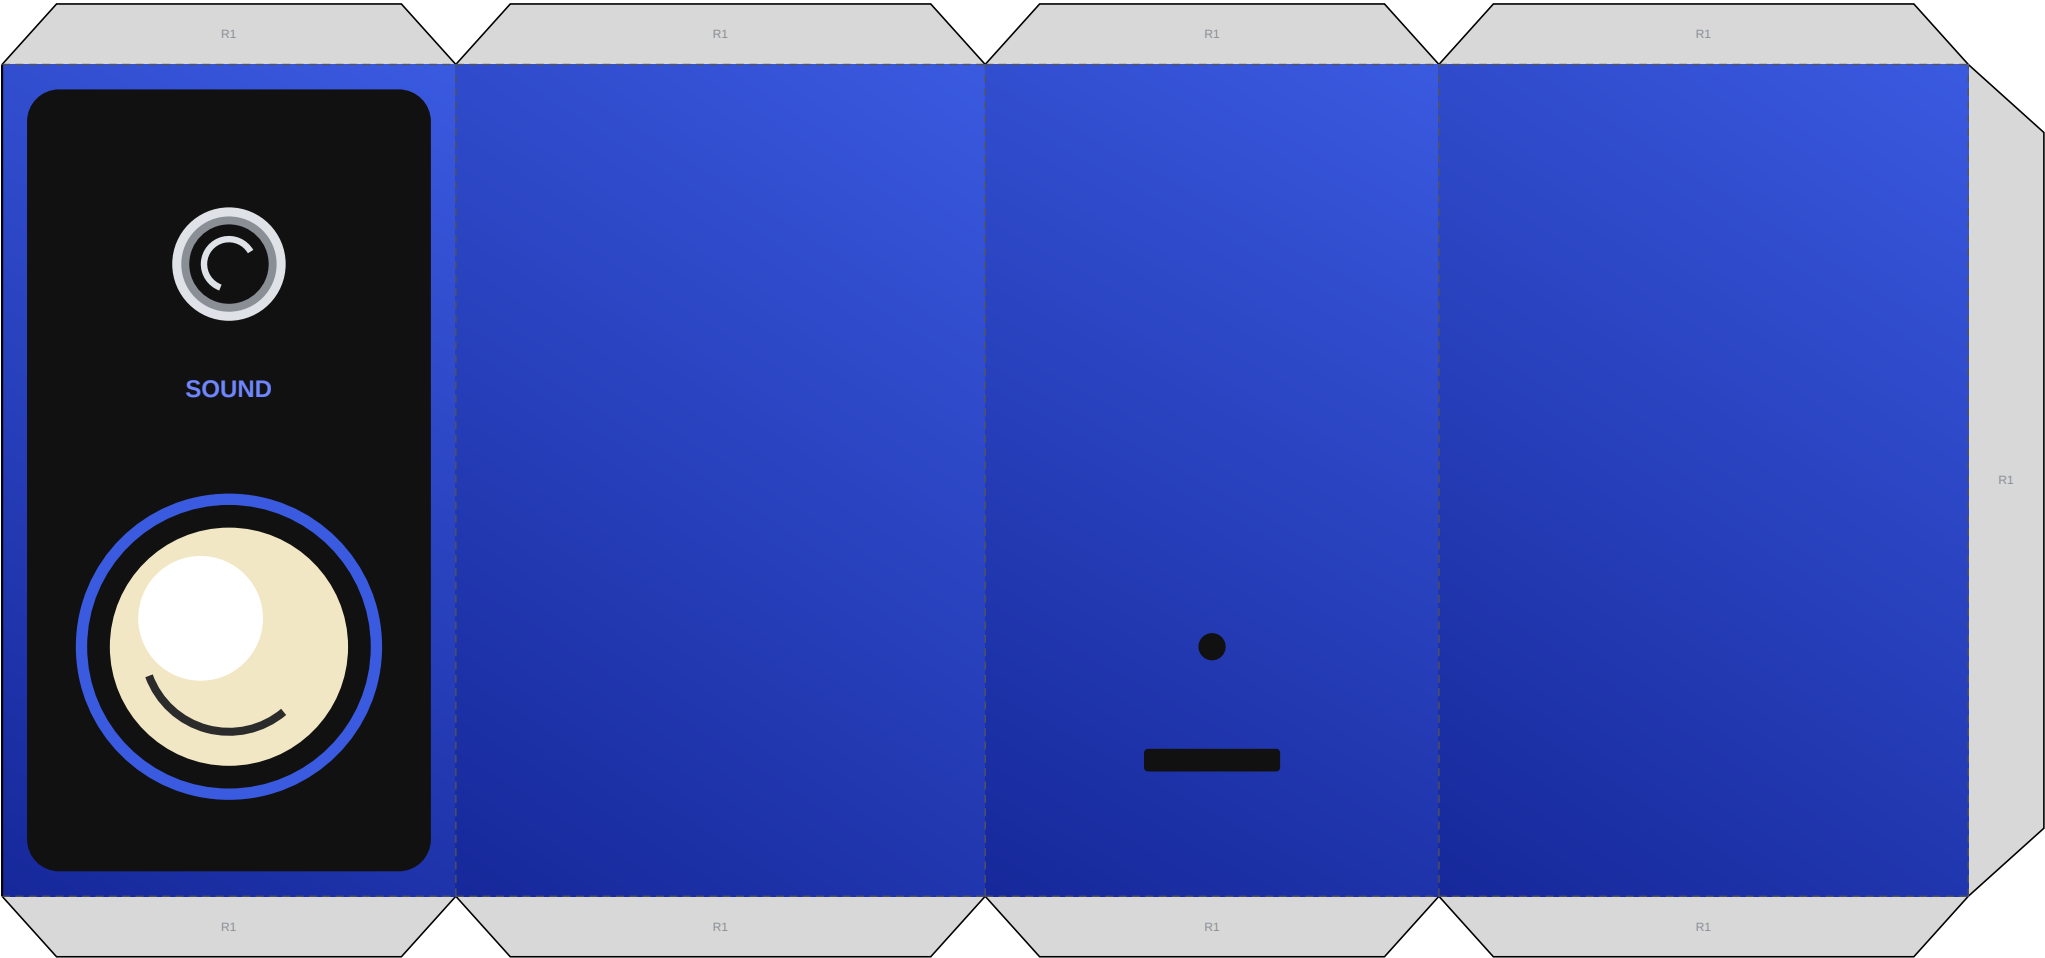

L1 speaker left

05 SPEAKER RIGHT - WALLS (R1)

Front | right | back | left. Glue the end tab inside the front edge to make a tube,
then glue top R2 and bottom R3 onto the small tabs.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

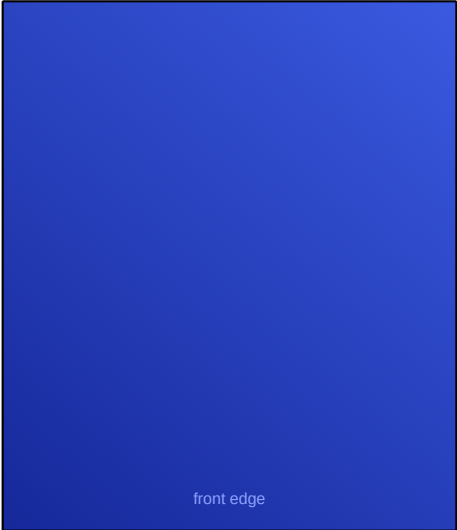

R1 speaker right

05 SPEAKER TOPS + BOTTOMS (L2, L3, R2, R3)

6 x 7 cm each. Glue onto the tabs of the speaker tubes L1 / R1.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

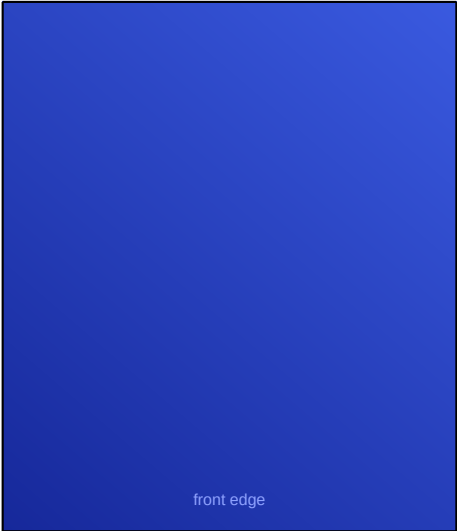

L2 left top

L3 left bottom

R2 right top

R3 right bottom

06 KEYBOARD - TOP + WALLS (K1)

22 x 7.5 x 1 cm. Fold walls down, glue the 4 corner tabs, then glue the bottom K2 (07_small_parts) onto the outer tabs.
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

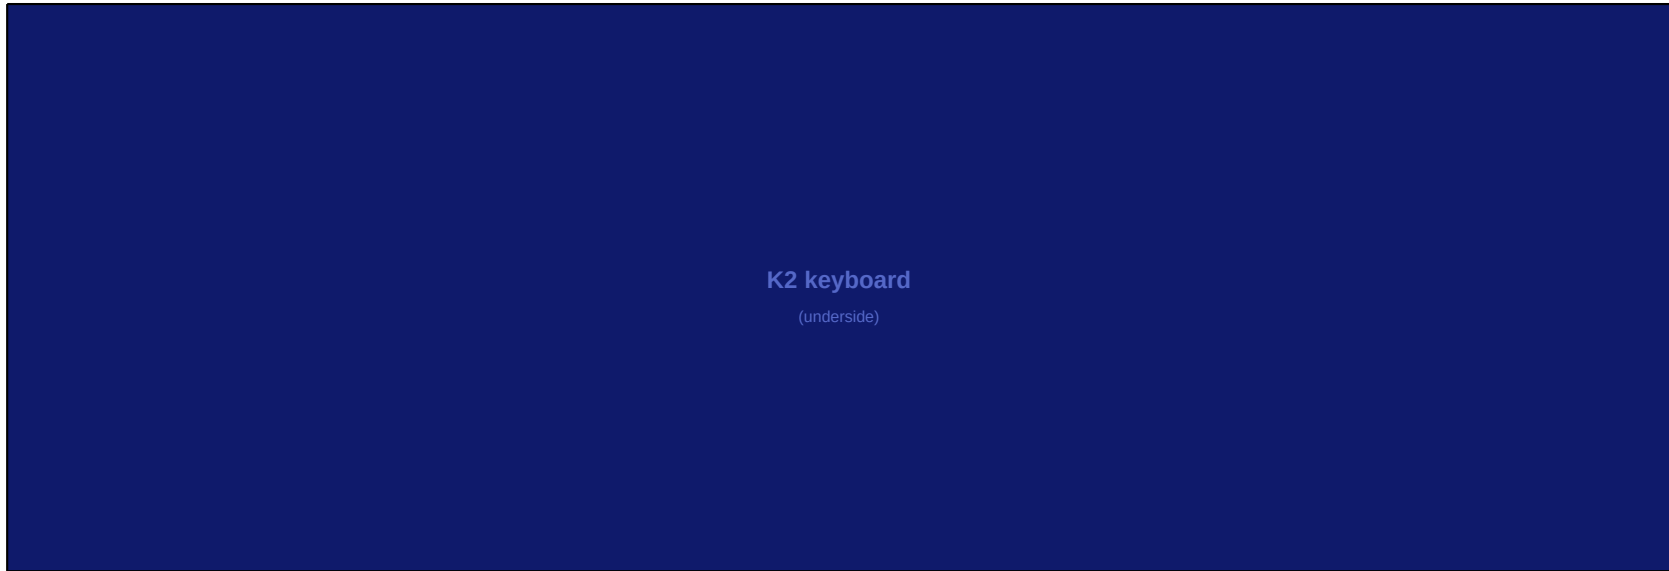

K1 keyboard

07 SMALL PARTS 1 - BOTTOM PANELS (K2, U2, S3)

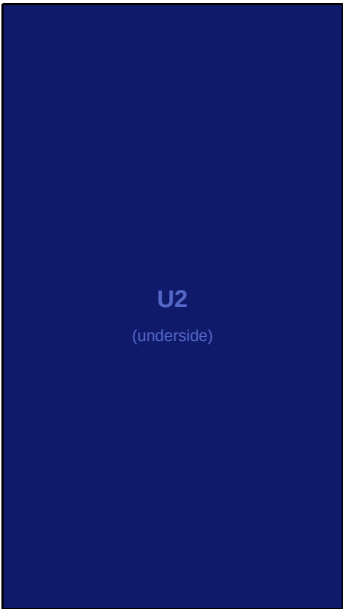

These close the keyboard, mouse and stand foot from underneath (they will not be seen).
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).

K2 keyboard bottom

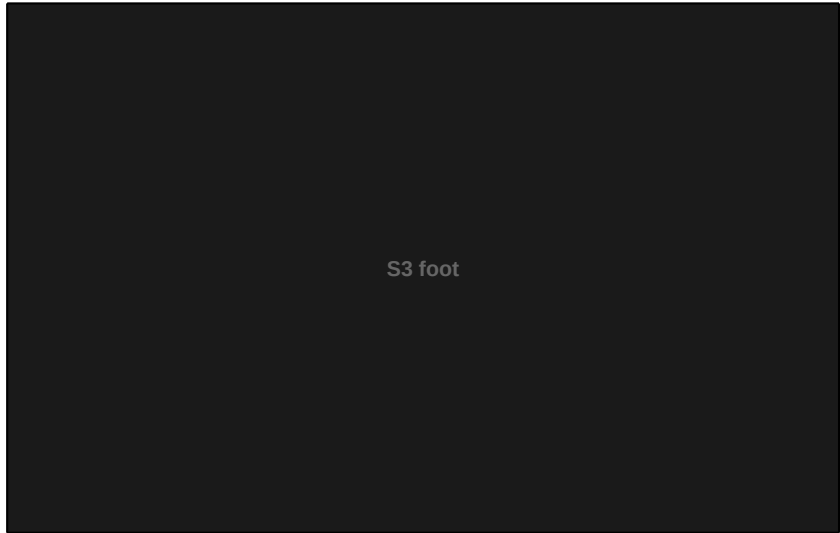

K2 keyboard
(underside)

U2 mouse bottom

U2
(underside)

S3 stand foot bottom

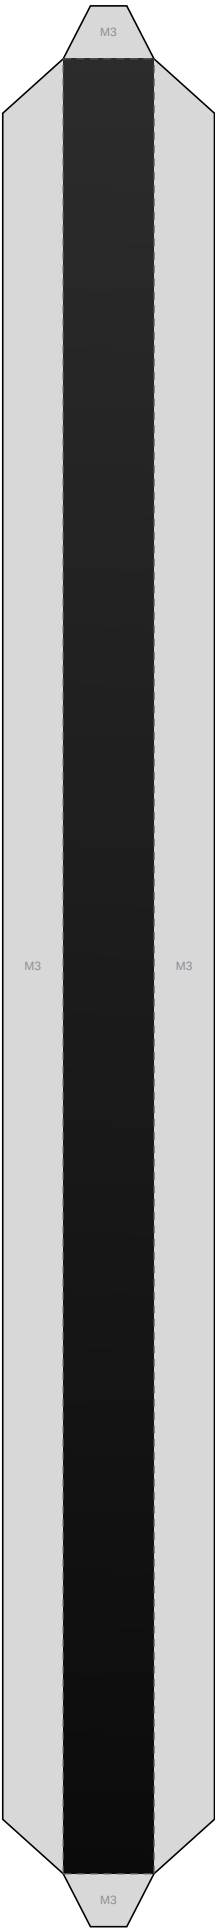

S3 foot

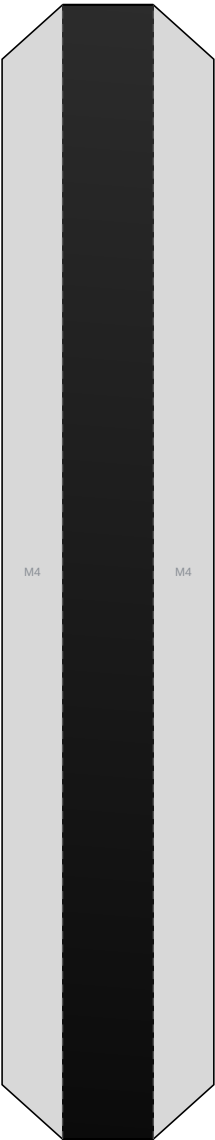

07 SMALL PARTS 2 - MOUSE (U1) + MONITOR WALLS (M3, M4, M5)

U1: fold walls down, glue corner tabs, close with U2. M3 = monitor bottom wall (24 cm),
M4 / M5 = monitor side walls (15 cm). One long tab glues inside the back M2, the other under the screen M1.

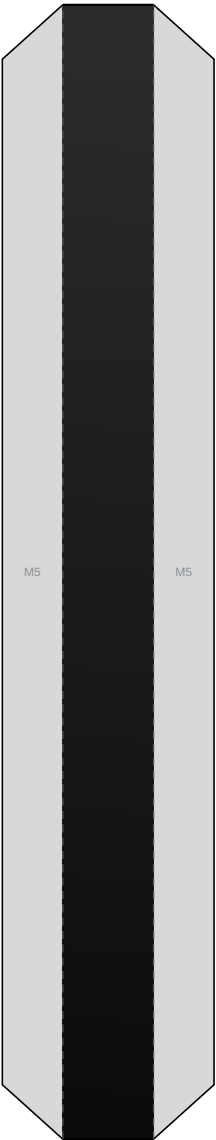

M3

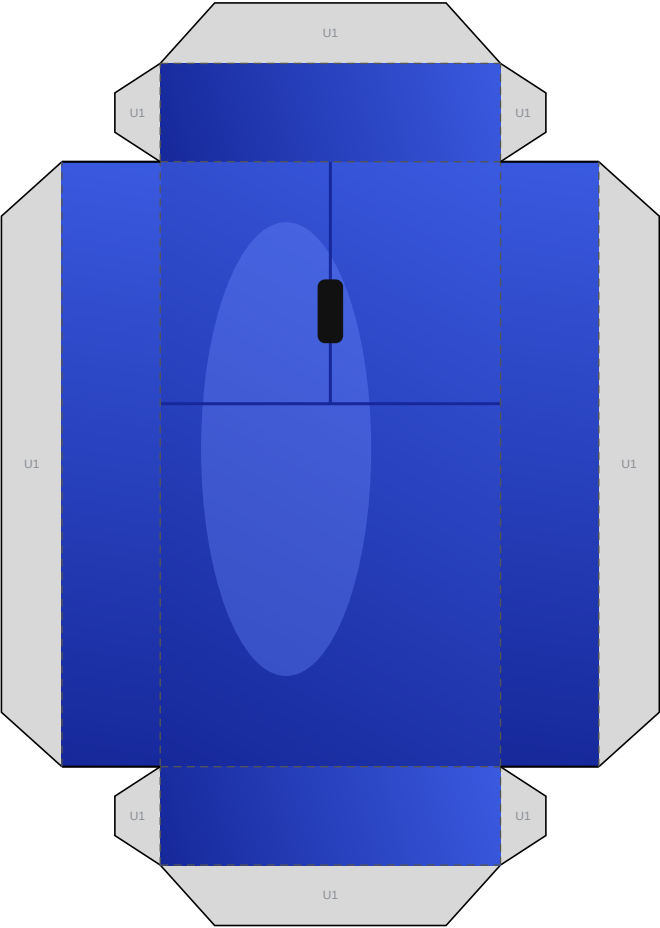

M4

M5

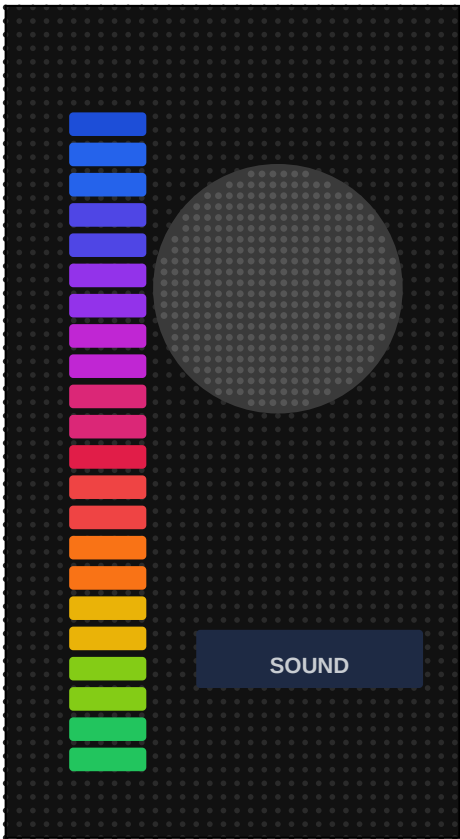

U1 mouse

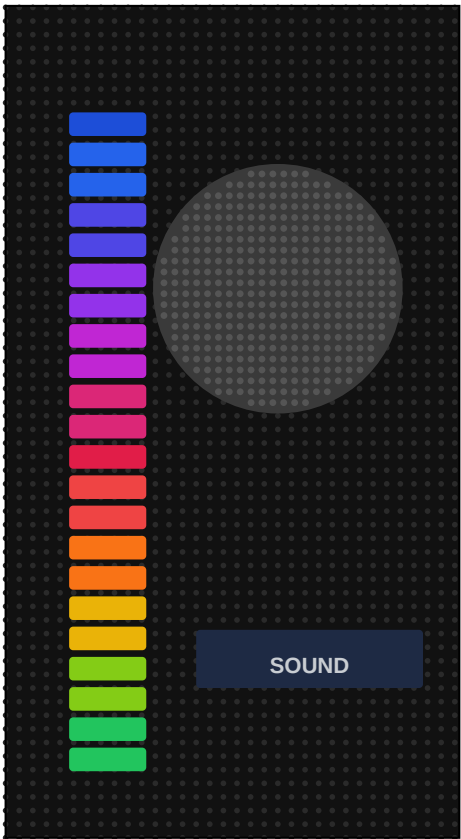

08 OPTIONAL - RGB SPEAKER FRONTS (X1, X2)

Style of the 3rd photo. Cut and glue over the speaker fronts (exactly 6 x 11 cm).
Print at 100 % / 'Actual size' (NOT 'Fit to page'). Best on 200-250 g/m2 card; or glue the print onto thin card (cereal box).
